Thom's Pneumatic and Propellor Elevator Feed Cutter

Our machines have filled more silos, twice over, than has been filled by all the other combined families of imitation machines.

It's foolish boasting for any firm to say that their machines are the only practical pneumatic cutters on the market.

We are the originators and the patentees, and the only safeguard against being humbugged is to see that the machine you purchase is marked "Thom's Patent."

Every honest manufacturer in Canada knows that we are the leaders and that our machines represent all that is latest and best.

We guarantee to fill any silo in Canada, we care not what the height may be, at the rate of 8 to 12 tons per hour.

And we remind the farmers, we make High Grade Plows, Riding and Walking. Our latest is the "Ideal" Two-furrow Gang, for two or three horses, intended to do the work of two ordinary walking plows.

Wherever our Plows are not already known, special prices to introduce them. Once on the farm they prove a comfort.
