Protection from Lightning,

BY SPRATT'S PATENT.

LIGHTNING CONDUCTORS manufactured by E. V. Wilson & Co., Copper & Iron Smiths, Yonge Street. The Subscribers are now in Hamilton and agents for the sale of the above articles at the Canada Mineral Oil Works and for sale wholesale and retail, at No. 50, Yonge Street, Toronto.

CAUTION.—Allow no man to protect your building without first examining the points of the rods and if they have not the Platinum Wire in the point, they are not genuine. The coating of them is of a composition metal that never rusts, retaining its brightness for years. The metal is soft and easily cut with a knife, yet sufficiently hard not to melt under the influence of electric flashes. Look out for rods manufactured at St. George C. W., they pervert to be Spratt's points and rods but are not. The points are made of steel, highly polished, but will become coated with rust after the first night's exposure to the atmosphere, consequently rendering them useless. Always ask on the Agent's Certificate of right to sell, and to notice the stamp—SPRATT'S IMPROVED POINT—this is on the points near the base.

Notice.—No Policy of Insurance covers losses by lightning unless burnt down or set on fire.
