**McClary's
Famous
Hot
Blast
Heaters
For
Coal**

This stove has been constructed specially for the trade of Manitoba, the North-West Territories and British Columbia.

By the arrangement of the damper at the top of stove and the position of smoke pipe collar, the smoke is made to pass through the fire, and thus be consumed. A ventilator in front of stove keeps gas from accumulating.

Supplied with nickelled fancy swing top, air-tight screw dampers, direct and indirect drafts. A **POWERFUL HEATER AND A GREAT SAVER OF FUEL.**

It will burn successfully **HARD COAL, SOFT COAL, or SOURIS COAL.**

It practically consumes its own smoke.

The air passing in at the top, being first heated, brings about the most perfect combustion possible, as it supplies a fresh discharge of oxygen at the very point of combustion, enabling the fire to burn up all the smoke. The amount permitted to go through the fire can be accurately regulated by the air-inlet.

The down draft in this heater warms the floor, where heat is most needed.

ELDRED'S ANTISEPTIC HAT PAD

Positively Prevents Dandruff. Preserves the Hair.

It is about the size and thickness of a silver dollar, and is ornamental. (Cut exact size.)

It contains a tablet of antiseptics and disinfectants with curative, and restorative qualities, which are slowly volatilized by the heat from the head. It disinfects and purifies the foul air in the dome of the hat, killing all germs which feed upon the scalp and destroy the hair.

It allays itching, stimulates the hair follicles, and supplies the hair with nourishment and energy, producing a clean, wholesome scalp, with luxuriant, lustrous hair.

KARL K. ALBERT

Wholesale Jobber, Winnipeg.

Sold by one first-class hatter in each city.

If your hatter does not keep them, send me his name, and I will send you a pad postpaid, for 50 cents.
