

THE PROPRIETY OF BEARING TESTIMONY TO TRUE MERIT.—In a practice of over fifteen years I do not think I have written over three or four testimonials for proprietary medicines, but I cannot see any impropriety in bearing testimony to a truly meritorious remedy, and especially where that remedy has stood the test of time with thousands of physicians who with one accord verify its curative virtues in a certain line of disorders. This is true of the preparation, Sanmetto, which I consider a wonderful remedy and almost a specific in all inflammatory diseases of kidney and bladder. I prescribe it daily in my practice, and it has never yet disappointed me, but has frequently surprised me by its wonderful curative powers. When I am called to treat a case of cystitis my thoughts revert to Sametto; in fact, I have learned to associate Sanmetto with cystitis, and from the thousands of testimonials received, and the number of favourable reports in the medical journals, I hardly see why the manufacturers of Sanmetto desire more. It seems to me that a physician who does not know of the virtues of Sanmetto is very far behind the age.

THE PAIN IN RHEUMATIC GOUT—Chas P. Heil, M. D., late Professor of Anatomy, Indiana College of Medicine, Indianapolis, Ind., in the *Mobile Medical and Surgical Journal*, states: "Many of the cases of rheumatic gout which I have treated were of an obstinate and complicated character and I must state that I myself have been suffering with an attack in the nature of a very severe inflammatory condition, situated in and over the articulations of my wrist, knee and ankle joints. The pain which I suffered most of the time was indescribable. I placed myself under the care of a physician, who, upon examination, pronounced me also slightly affected with cardiac trouble. I suffered the most excruciating pain for ten days and nights, without alleviation of my sufferings, nor apparent signs of progress for the better.

Knowing full well the efficiency and value of Antikamnia Tablets in these cases, I took two tablets and about ten minutes after taking them the pain was relieved, I perspired slightly and then fell into a gentle sleep. The result was simply magical. I slept eight hours in perfect rest, free from all pain. I continued the two tablets every four hours during my convalescence and until complete recovery.

SOMETHING TO CONSIDER.—After many trials of a remedy that has previously given you satisfaction, have you ever experienced a time when results seemed to fail? You evidently presumed that your old stand-by had lost its efficacy, when in reality, if upon investigation, you will many times find that your patient is taking a worthless substitute and not the genuine product. Dysmenorrhoea, that most painful affliction of women, readily responds to treatment with Hayden's Viburnum Compound and as this well-known remedy is always uniform good results follow its administration.

All reputable products are imitated which is the best evidence of the value of the original preparation, therefore, where pain is manifest, it is important that the genuine Hayden's Viburnum Compound be administered.
