THE LARGEST PYRAMID IN THE WORLD.

MANY people who have looked with admiration and awe upon the great pyramid of Cheops in Egypt, may perhaps be surprised to learn that the largest pyramid in the world is on American soil, says the Rochester *Democrat*. This pyramid is on the east bank of the Mississippi in Madison county, Illinois, and is best known as the Cahokia mound. It is attributed to the mound builders. This mound or pyramid has received some attention from archæologists, but the general public hardly knows of its existence. The owner of the land upon which the pyramid stands, Hon. Thomas J. Rainey, has asked Congress to purchase the site for the public.
