

introduction

Canada, a world leader in the manufacture of health care products, has established over the years a reputation for innovation, quality and competitiveness in virtually every sector of the health care market. Canadian hospitals and institutions are world-renowned for their high standards and levels of efficiency, and Canadian industry has responded in kind.

If you seek a reliable, stable source of high-quality health care products that are attractively priced, you need look no further. Consider Canada.

For the first time, a directory of Canadian manufacturers who export health care products has been conveniently provided under one cover. The companies included in this catalogue range from large manufacturers to the small, specialized concerns. However, they all share one thing in common: their dedication to providing hospitals, institutions, retailers, nursing homes, and individuals with the best-quality products at the most reasonable price.

How to Use this Directory

The search for health care products can often be a time-consuming and arduous task. However, this directory has been especially designed to allow the reader to identify easily those companies that are of interest. The directory has been indexed in two ways:

1 Alphabetical Listing. This section includes all the companies with accompanying corporate/ product profiles, and address and contact information.

2 Product Category Cross-Index. This section identifies all the product categories and lists those companies that manufacture products within each product category.

For Further Information

If you or your organization are interested in obtaining further information regarding the companies and products in this catalogue, please feel free to contact the company directly or contact the Canadian trade commissioner at the Canadian embassy, high commission, consulate general or mission nearest you. You are invited to contact the following:

Health Care Products

NOTE:

This publication is designed to acquaint foreign buyers with Canadian manufacturers of health care products. The directory is not intended to be a definitive listing of all Canadian health care product manufacturers, although every effort has been made to include most Canadian exporters. The product information contained in this directory was provided by respondents to queries sent to all known manufacturers of health care products in Canada.
