

TABLE 1. LIMITS OF PURIFICATION OF NUCLEAR MATERIAL

1. <b>Uranium</b>	Uranium enriched to 10% 25% U but less than 20%	Uranium enriched to 10% less than 10% Uranium enriched above natural but not above 100%	Less than 10% 10 kg or more
2. <b>Plutonium</b>	Plutonium enriched above natural but not above 100%	Plutonium enriched above natural but not above 100%	200 g more than 2 kg but more than 500 g
3. <b>Enriched fuel</b>	Enriched fuel	Enriched fuel	10 kg or more
4. <b>Unenriched fuel</b>	Unenriched fuel	Unenriched fuel	200 g more than 2 kg but more than 500 g
5. <b>Enriched uranium</b>	Enriched uranium	Enriched uranium	10 kg or more
6. <b>Unenriched uranium</b>	Unenriched uranium	Unenriched uranium	200 g more than 2 kg but more than 500 g
7. <b>Enriched thorium</b>	Enriched thorium	Enriched thorium	10 kg or more
8. <b>Unenriched thorium</b>	Unenriched thorium	Unenriched thorium	200 g more than 2 kg but more than 500 g
9. <b>Enriched plutonium</b>	Enriched plutonium	Enriched plutonium	10 kg or more
10. <b>Unenriched plutonium</b>	Unenriched plutonium	Unenriched plutonium	200 g more than 2 kg but more than 500 g
11. <b>Enriched uranium and plutonium</b>	Enriched uranium and plutonium	Enriched uranium and plutonium	10 kg or more
12. <b>Unenriched uranium and plutonium</b>	Unenriched uranium and plutonium	Unenriched uranium and plutonium	200 g more than 2 kg but more than 500 g
13. <b>Enriched uranium and thorium</b>	Enriched uranium and thorium	Enriched uranium and thorium	10 kg or more
14. <b>Unenriched uranium and thorium</b>	Unenriched uranium and thorium	Unenriched uranium and thorium	200 g more than 2 kg but more than 500 g
15. <b>Enriched uranium and thorium and plutonium</b>	Enriched uranium and thorium and plutonium	Enriched uranium and thorium and plutonium	10 kg or more
16. <b>Unenriched uranium and thorium and plutonium</b>	Unenriched uranium and thorium and plutonium	Unenriched uranium and thorium and plutonium	200 g more than 2 kg but more than 500 g
17. <b>Enriched uranium and thorium and plutonium and thorium</b>	Enriched uranium and thorium and plutonium and thorium	Enriched uranium and thorium and plutonium and thorium	10 kg or more
18. <b>Unenriched uranium and thorium and plutonium and thorium</b>	Unenriched uranium and thorium and plutonium and thorium	Unenriched uranium and thorium and plutonium and thorium	200 g more than 2 kg but more than 500 g

NOTE: The limits of purification of nuclear material are given in the table. The limits of purification of nuclear material are given in the table. The limits of purification of nuclear material are given in the table.
