

*Western Grain Transportation Act*

Finally, what is killing all parts of Canada but particularly the productive boys in Canada is interest rates. Give to the farmers and the small-businessman the principle of the Small Business Development Bond or any of the other things our fellows have been suggesting where you can get interest at half rate and no one loses. You can do a lot to restore the hope and confidence that there has to be in a producer's area at a time like this when the future is so great for us all.

**The Acting Speaker (Mr. Blaker):** Hon. Members will realize that it is five o'clock. The Chair has been privately advised that there might be a disposition to allow some additional time. I am in the hands of the House. If that is the desire of the House, we can do so.

**Mr. Mazankowski:** Mr. Speaker, if the Hon. Member has not completed his remarks I suggest that we seek unanimous consent for him to do so. I am not sure whether he has been able to round out his speech, but I believe we all found it to be

a very interesting, very positive and forthright speech. He is a distinguished Hon. Member and has a great reputation in agriculture and transportation matters. If the Hon. Member wanted to conclude his speech in three or four minutes, I would certainly seek the unanimous consent of the House for that purpose.

**Mr. Benjamin:** Mr. Speaker, we would agree that the Hon. Member should have his full 20 minutes.

**The Acting Speaker (Mr. Blaker):** The agreement of the House is a great courtesy to the Hon. Member, but he has just informed me that he will decline the offer.

It being after five o'clock p.m., this House stands adjourned until Monday next at 11 a.m., pursuant to Standing Order 2.

At 5.03 p.m. the House adjourned, without question put, pursuant to Standing Order.
