

MCGILL UNIVERSITY  
MONTREAL

DEPARTMENT OF ZOOLOGY

Nov.7th.1931.

Dear Dr.Hatcher

In allowing for calender changes for next year I wonder if Zoology 1 could be extended throughout the whole year so as to bring it into line with Physics and Chemistry. The course is at present too short to be satisfactory and I would very much like space to be allotted in anticipation of its possible extension.

Yours sincerely

*John Berrill*
