

Dwellings for Manufacturers, etc.

A LIMITED number of brick dwelling-houses of ten to twelve rooms with stable and coach-house can be rented for from £30 to £60 stg. per year. Such houses can be built for from £500 to £600 stg., and building sites can be got in fashionable quarters for £100 stg. for half an acre. For say £1,000 a mansion can be built fit for a prince to live in. Yet there are some dwellings in the town which have cost as much as £2,000 to build.

A pair of good and stylish carriage horses can be purchased for £50 stg. which would be worth double the money in England. A stylish carriage can be got for from £30 stg. to £50. There are no taxes on horses and carriages in Canada as exist in England.

Cotton—Orders on Hand!

WHILST the cotton manufacturers of Manchester, Oldham and other places in England are at present arranging to run on short hours owing to the accumulation of stocks on hand, the cotton factories of the Dominion are running night and day, and are yet behind several months with their orders, and the shares of our cotton factories actually command in some cases a premium of 87 per cent! Nor is this at all surprising for it is well known that their net earnings are over twenty per cent. Will the cotton lords of Manchester make a note of these facts, and perhaps they may be induced to remove some of their idle machinery to Stratford. If so we venture to say without fear of contradiction that the present generation will not see any necessity for a resort to the short hour movement.
