LULU GLASER'S LAST WEEK

A well-known kindergartner tells of two little girls who had quarreled with another playmate. The next morning one said: "When I got home

The first mother defended her child, laying the blame on someone else. The second mother pointed out the cause of the quarrel, not of that quarrel only, but of all quarrels. One of the benefits of such logical training is that each cause and effect throws light on all after experiences.

THE HANDY MAN

When the rounds of a chair have seme loose or have come out, secure from your hardware store a little tube of wood glue. Place the glue in the joint to be mended. Get your clothesline (it need not be cut in two) or any strong cord or small rope and tie it around the chair legs. Then take a small stick and twist it until it is tight. Set the chair away a day or two for the glue to set. Upon remov-the rope the joint will be as good as new. The little device holds the parts very firmly, which is the secret of mending fuiniture; and any home has a clothes-line and a little stick.

a useful bracket for the kitchen or bathroom is made for a few cents, as follows: Take one side of a wire broiler, and bending the handle at a right angle to the broiler proper, secure it firmly with two pointed tacks to the wall, just over a swinging gas-jet. If
