WAR VETERANS

ORIGINALS' CLUB NOT IN FAVOR OF RIOTING

The Originals Club entirely disapproves of the recent riots in Toronto. This was the gist of a resolution passed by the club at its session on Wednesday night at the Peterkin Building, Bay street.

The Originals Club has virtually affiliated with the Army and Navy Veterans' Association, and appointed Bro. Proctor, Rademacher and Wake a committee to act in conjunction with a committee of the other association to consider the details of the proposed affiliation. The secretaries of each association will also confer upon the matter.

The ladies' division of the Originals Club has now been organized. It met last night for the second time. The membership comprises only the direct relatives—wife, mother, sister or daughter—of every man who went to France with the first contingent.

URGES QUICK ACTION ON ALIEN PROBLEM

"The executive committee of the West Toronto Branch, G.W.V.A., places itself on record as strongly deprecating the action of a few returned soldiers in resorting to mob law during the recent riots. Such conduct can only react upon themselves, and brings discredit upon the returned men."

"At the same time the executive earnestly urges the Toronto civic and the federal government to take drastic action at the earliest possible moment relative to the alien problem which has repeatedly been called to the attention of the proper authorities."

The above resolution was passed unanimously at last night's session of the executive of the West Toronto branch of the G.W.V.A. The members present were Comrades S. H. Marani, W. P. Spracklin, N. R. Black, S. C. Richards, J. J. Norman and G. V. Gustar.

WOMEN'S DIVISION OF THE ORIGINALS' CLUB

Mrs. Crane was elected president and Mrs. Brown vice-president of the women's division of the Originals Club last night at the second meeting of the division. The meeting was held at the Peterkin Building, Bay street.

Mrs. Brown was elected secretary-treasurer and Mrs. Burley, Mrs. Hunter and Mrs. Brown were elected members of the executive committee.

The division is open to all direct relatives of the men who went over to the trenches with the first contingent.

The initiation fee will be 50c and the dues 25c a month.

HAS NOT RESIGNED.

President of York District, G.W.V.A., May Do So.

Harold Meredith, president of the York district of the G.W.V.A., who was reported to have tendered his resignation to the executive, stated last night that it was not a fact that he had done so.

"While it is true that I have not yet tendered my resignation," said Comrade Meredith, "I may do so shortly. The fact is that I have too much work on hand to be able to devote sufficient outside time to an office which demands ample leisure time for the conscientious man. I had intended some weeks ago that I desired to vacate the office, and the executive asked me to defer action until after the Dominion convention was over."

FELL FROM SCAFFOLD.

Richard George, 47, of 177 Crescent, received a dislocated shoulder when he fell from the scaffolding at a house on Gillard avenue. Dr. K. Campbell, 1461 Danforth avenue, was called, and had him removed to his home.

MRS. J. C. DUNLOP DIES.

Mary E. Dunlop, wife of J. C. Dunlop, died Wednesday at her home, 177 Yarmouth gardens. She was born at Thomhill 55 years ago and lived in Toronto for 38 years. She was a member of Bathurst Street Methodist Church and Home Circle, No. 12. She is survived by her husband, James Dunlop; a daughter, Mrs. Waymouth; three sons, William, Percy and Bert; her mother, Mrs. Robert Jarrott, and a brother, Edward Jarrott.

YOUNG BOY DROWNS WHEN IN BATHING.

John McGinnis, nine years of age, 24 Park road, Swansea, was drowned yesterday opposite Stop 4, Lake Shore road. With several other boys of his own age, he went in bathing and got beyond his depth and sank. It is believed that he was seized with cramps. His companions notified Dr. McLean, 5 Windsor avenue, who recovered the body and called Dr. Williams, who pronounced the boy dead. The chief coroner was notified and the body was removed to Norman Craig's undertaking rooms.

HIDE WHISKEY IN COOP.

Mike Gaska and his brother-in-law, Alex Zedda, appeared in yesterday morning's police court charged with a breach of the Ontario Temperance Act. Whiskey was found in a pigeon coop, marked tea and coffee. Gaska was fined \$200 and costs of three months, but Zedda was discharged.

Sun Burned Skin

You want a healthy summer tan. But sometimes you get it too quickly and then there is a few days of suffering.

The application of Dr. Chase's Ointment takes out the stinging and burning and leaves the skin delightfully soft and smooth.

Because it is equally effective in relieving stings of insects and ivy poisoning as well as chafing and skin irritations it is invaluable in the summer camp.

THE WEATHER

Meteorological Office, Toronto, Aug. 8, (8 p.m.)—Showers and thunderstorms are occurring over the greater portion of Ontario and western Quebec; otherwise the weather is generally fine over the Dominion and very warm again in the west.

Minimum and maximum temperatures: Prince Rupert, 48, 60; Vancouver, 54, 70; Edmonton, 48, 70; Battledore, 48, 65; Prince Albert, 50, 64; Calgary, 48, 60; Medicine Hat, 54, 60; Regina, 53, 63; Winnipeg, 50, 64; Port Arthur, 55, 72; Parry Sound, 50, 73; London, 59, 77; Toronto, 71, 90; Ottawa, 68, 73; Montreal, 54, 75; Quebec, 56, 73; Halifax, 59, 66.

Probabilities.—Lower Lake and Georgian Bay—Moderate to fresh winds; some showers and local thunderstorms at first but partly fair and not so warm.

Ottawa and Upper St. Lawrence—Showers and local thunderstorms. Lower St. Lawrence, Gulf and North Shore—Moderate to fresh winds; unsettled, with showers.

Maritime—Moderate to fresh winds; unsettled, with showers and local thunderstorms.

Lake Superior—Moderate winds; fair, not much change in temperature. Thunderstorms, but mostly fair and decidedly warm; cooler on Saturday.

Saskatchewan—Early fair, but some local showers or thunderstorms, becoming a little cooler.

The Safest Matches in the World. Also the Cheapest ARE

EDDY'S

"SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

THE E. B. EDDY COMPANY LIMITED HULL, CANADA

NEWS OF LABOR

CONCILIATION BOARD OFFERED BY COMPANY

A board of conciliation has been offered to the striking employees of the Canadian Express Company, and it is believed that they may return to work this morning. This was the information given out by Edward Allen, superintendent of the company in Toronto.

The strikers yesterday appointed a deputation to confer with the superintendent to settle the difficulties if possible. The committee comprised B. Riley and Messrs. Roberts, Baldwin, Margison, Allen, Powell, Phillips and Webster.

The men are demanding the following schedule: Night men, 8 hours a day; day men, 9 hours; wages, \$4.00 after six months' service, an extra \$2 after one year's service, and a maximum of \$101.25. The present schedule is several dollars behind the demands of the men.

TEXTILE WORKERS' SCHEDULE.

Textile workers thruout Toronto are exercised over the new wage schedule which is being offered by the textile firms. They claim that the schedule is not based upon a system of equalization, and that some employees would be discriminated against in the matter of increases.

The agreement, according to an official of the Textile Workers' Union, offers a 35 per cent increase to some grades of workers and nothing to others. It is understood that the members of the union may demand a board of conciliation under the Industrial Disputes' Act to consider the schedule.

CHOSEN AS DELEGATE.

A. Farquhar of the Electrical Workers' Union was last night elected delegate to the Trades and Labor Congress which is to be held at Quebec the middle of September.

DETERMINATION NEEDED IN FACTORY AND FIELD

The spirit with which we commence each day's work depends largely upon our mental attitude towards it. Most excited labor falls at a time; and it requires great will power to overhaul one's viewpoint and rekindle enthusiasm.

This applies particularly to munitions labor. The work requires great physical strength, and it is tiring because it imposes continuous mental alertness.

For these reasons, munitions workers are in a class by themselves. And because they are above the average, public appeals are being made to them to speed up their efforts and get back to the large per capita output of munitions that they produced in 1917.

On hot sweltering days it requires resolution to keep up the grind; but remember, it needs even greater resolution to be fighting. As the most vital force behind the man behind the gun, Canada expects her munitions workers to keep on producing with the same determination that our armies keep on fighting.

Mike Gaska and his brother-in-law, Alex Zedda, appeared in yesterday morning's police court charged with a breach of the Ontario Temperance Act. Whiskey was found in a pigeon coop, marked tea and coffee. Gaska was fined \$200 and costs of three months, but Zedda was discharged.

Conditions After the War

Canada Must Make Preparations to Take Best Advantage of These.

That Canada will go ahead fast and far in the reconstruction period is a certainty. Just how much of our industrial effort is being expended on the making of war materials. The stimulation of Canadian industry by war business has been nothing short of marvelous. We have proved our ability to adjust ourselves quickly to new forms of manufacture, and we have trained in artisan's skill many thousands of men and women who a few years ago were strangers to machine operations. The artisans lost to industry by their absorption into the army have in measure been replaced by the new workers that have been trained. When war is over, and several hundreds of thousands of men come back, Canada will have much new labor to be utilized in productive work. This necessity is the assurance that the industrial future of Canada will be greatly accelerated in its development.

Fortunately Canadian manufacturers have learned, since war began, not to sell for foreign markets, but to estimate the value of foreign trade. Foreign trade is a necessity if we in Canada are to remain prosperous in the days ahead, and this will take time, and may unsettle industry for a period. But in the end it will mean new industries to meet the domestic demand for goods, and when industry becomes stabilized and when its divisions and localities become clearly defined, it will be found that the part of new industries and specialized industries of moderate dimensions will be to locate outside the big cities where the cost of living and wages are high, where the competition for labor is always keen, and where industrial unrest is always greatest. This tendency to locate in smaller centers of the part of new industries and specialized industries of moderate dimensions will be to locate outside the big cities where the cost of living and wages are high, where the competition for labor is always keen, and where industrial unrest is always greatest.
