

HAS "WON'T BLISTER" HOOKS AND EYES

IMPROVEMENT NUMBER SEVENTEEN

Pinching, Boring, Blistering Hooks and Eyes in Action.

Foot-rite "Won't Blister" Hooks and Eyes in Action.

Everybody knows that most hooks and eyes blister. Everybody's leg, ankle and instep surface bears scars and calluses which prove of hook and eye blisters that once were. But why do hooks and eyes blister?

Well, hooks and eyes are made of metal. If awkwardly riveted on, they're going to be rough on the under side next to the foot, and as metal's harder than skin, the skin's going to get skinned.

Then the leather between the hooks and eyes is going to bend nearly double when the leg bends forward and in bending double some of those between-leather are going to bulge up A-shaped and some sink down V-shaped. If the leather is thick, hard and stiff, the A-shapes are going to pinch like pinchers and the V-shapes are going to bore like drills at every forward bend of the leg, and don't you forget it!

Foot-rite hooks and eyes are made of metal, but they're riveted as smooth on the under side as the top of a much-traveled steel rail, and as they're covered underneath with a soft strip of kid, they're as harmless as young down to the leg, ankle and instep surface. And the leather between the hooks and eyes in a Foot-rite bends A-shaped and V-shaped as in other shoes, but doesn't form pinchers and drills to pinch and bore blisters. Why? The leather is not thick, hard and stiff. It's "Normal-Calf," the new Foot-rite leather, almost as soft and supple as the live calf's skin. Lace Foot-rites as tight as you like. There'll be no pinching or boring of blisters.

The name of the Foot-rite retailer in your town's below. His door swings inward but never outward to find a more welcome store. Ask him to demonstrate the comfort of the Foot-rite "Won't Blister" Hooks and Eyes.

Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

Lowest Rates for the Best Quality Throughout the Season, Storage Capacity, 41,000 Tons.

Says Mortgages Are Fraudulent. Oster Wade, assignee for J. H. Drinkwater of Haldimand Township, has disputed two chattel mortgages made by him and is suing Drinkwater and R. A. Elliott of Cobourg before Justice Tettel in the non-jury assizes to have them set aside and a declaration that they are fraudulent.

Two Wives Claim Estate. Two wives have entered a claim at Osgoode Hall for the estate of Abraham Jones, who died in Alberta in 1904. Jones left \$30. Mrs. Jones No. 1 says she was married to Jones near London in 1875. The other woman was married in Dakota in 1885.

GROWERS' FEARS VAIN.

Temperature Was Low, but There Was No Frost.

ST. CATHARINES, May 21.—All fears as to last night's weather effect on the fruit crop may be set at rest as there was no frost in the Niagara fruit belt.

Last night it got so cold that the tomato and other growers were nearly panic-stricken, but the fears were all for nothing, as the steady wind and heavy cloudiness stayed off the frost and none was reported here to-day.

The thermometer only registered 34.

Frost would have done immense damage to tomatoes, strawberry plants and fruit blossoms. The peach and cherry trees are in bloom, and this is a critical period just now.

C.N.R. WILL FETER BELLEVILLE.

BELLEVILLE, May 21.—A. R. Wicksted, engineer for the Canadian Northern, was in the city to-day in regard to the proposed entrance of the C.N.R. to this city.

The engineer examined some of the alternative plans to that surveyed by the C.N.R., but none of them appeared to find favor with him.

Death in Cave-in.

LONDON, Ont., May 21.—By the caving in of a sewer on Bruce-street, South London, Frank Bickley, a laborer, met his death this morning.

Bickley, who was 67 years old, was in the trench with a number of other workmen, when the shoring gave way and a quantity of earth fell in on him. He was partly buried, and was being extricated when a second caving-in occurred. Bickley was pinned under five tons of earth, and before he could be released life was extinct.

Cadet Lost No Marks.

KINGSTON, May 21.—The authorities at the Royal Military College say that the alleged reduction of a cadet's rank to the ranks for shaving his lips, so that a speedier growth might follow, is unfounded.

True, a reduction had been made of the Montrealer, but the shaving of the lip was only a culminating episode which led to the taking away of the stripes. He lost no marks by the reduction. The despatch to the outside papers, alleged to have been sent from Kingston, did not emanate here.

CITY DENIES THERE WAS ANY AGREEMENT

Evidence Respecting the Richmond Street Curves Before Railway Board Was Conflicting.

The application of the Toronto Railway Company for permission to lay curves at the intersection of Yonge and Richmond-streets was taken up by the Ontario Railway Municipal Board yesterday afternoon, and the hearing will be continued this morning. The city was represented by Corporation Counsel Fullerton, and H. S. Coker, K.C., appeared for the company. The only witness for the railway was General Manager Fleming, who asserted that an understanding had been reached at secret conferences between President Mackenzie and himself on the one hand and the board of control on the other, that the company was to be permitted to put down the curves.

In view of this understanding the company had paid no attention to the bylaw which was passed by the city council on March 26, 1906, permitting them to lay tracks on Richmond-street, in which no reference was made to curves. Mr. Fleming showed some papers bearing on the matter to Mr. Fullerton, and they had a whispered conversation, at the close of which they went out of the room for a few minutes. When they returned Mr. Fleming stated that Mr. Mackenzie and himself had submitted plans showing the curves to City Engineer Rust. The engineer had approved of them, but he would not say that he had O.K'd them. In conclusion, he declared that the curves were a necessity, and the work could be done while the relaying of the tracks at King and Yonge was going on, if permission were given to go on with the curves.

City Engineer Rust denied absolutely that he had approved of any plans for the curves. The permission, the company asked might, he continued, result in shortening some car lines to the public inconvenience.

Controller Hubbard said that he had been present at all the conferences on the subject that he knew of, but he did not know of any curves having been agreed upon. He believed they were dangerous.

Mayor Coadworth declared emphatically that all that was agreed upon was in the bylaw.

MEXICANS ON MOVE.

Getting to Guatemalan Frontier on Pan-American Roads.

MEXICO CITY, May 21.—Mexican troops are moving to the Guatemalan frontier, according to information received in a private telegram. The troops are traveling over the Pan-American Railroad. In what numbers for what purpose these soldiers are moving southward is not known, outside of official circles.

It is said that the transfer of these troops may simply be the carrying out of previous orders issued by the war department, in pursuance of a plan of mobilization, which carries with it no special significance.

At the war department nothing could be learned of the situation, after time it has been learned that the scene of the greatest activity has been divided between Guatemala City and San Salvador.

BETRAYED BY A SNEEZE.

Jap Girls Were Being Smuggled to America as Freight.

PORT TOWNSEND, Wash., May 21.—Jap girls, each male in a pine box, were nearly killed by sulphur fumes on board the steamer Canab at Victoria. A sneeze betrayed them. The girls were consigned to the Saseko, a steamer passenger, alleged to be Taki Kalforo, who was deported from San Francisco two years ago as a result of a crusade by Christian societies.

Food and water supply was ingeniously placed in each box, which was fitted like a toy room.

BUSINESS GIRLS.

Need Rich, Red Blood to Stand Worried Strain of Business Hours.

Business overtaxes a woman's strength. Weak, languishing girls fade under the strain. They risk health rather than lose employment, and the loss of health means the loss of beauty. Thousands of earnest, intelligent young women who leave their homes and business establishments are silent, suffering victims of overtaxed nerves and deficiency of strength because their blood supply is not equal to the strain placed upon them. Fragile, breathless and nervous, they work against time with never a rest when headaches and backaches make every hour like a day.

Little wonder their cheeks lose the tint of health and their hair turns gray. Their eyes are dull, shrunken and weary; their beauty slowly but surely fades.

Business girls and women look older than their years because they need the frequent help of a true blood-making, strengthening medicine to carry them through the day.

Dr. Williams' Pink Pills are actual cures to the starved nerves and tired brains of business women. They actually make the rich, red blood that imparts the bloom of youth and glow of health to women's cheeks. They bring bright eyes, high spirits and unmake the day's duties.

Twelve months ago Miss Mary Cadwell, who lives at 40 Maynard-street, Halifax, N. S., was run down. The least exertion would give her out. Her appetite and stomach were poor, and frequent headaches added to her distress. The doctor treated her for anemia, but without apparent results. A friend advised her to use Dr. Williams' Pink Pills, and after using but six boxes she says she feels like a new woman.

She can now eat her meals with zest, the color has returned to her cheeks and she feels better and stronger in every way.

Dr. Williams' Pink Pills cure bloodlessness just as food cures hunger. It is not they cure Miss Cadwell, and it is not they make her feel like a new woman, but they cure such common ailments as indigestion, rheumatism, headache, neuritis and the special ailments which make miserable the lives of so many women and young girls. Sold by all medicine dealers or by mail at 50¢ a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockton, Mass.

FRISCO GOES IN FOR MUNICIPAL OWNERSHIP

Company Refuses to Operate Cars as Result of Strike and Its Franchise is Taken Away.

SAN FRANCISCO, May 21.—San Francisco is to make an experiment in municipal ownership of public utilities. The city will take over the Geary-street railway, according to a decision reached yesterday by District Attorney Langford after a conference with Chairman Gallagher of the board of supervisors.

The body will at once appropriate \$400,000, and this sum will be added to the June budget to the already appropriated for the assumption of the franchise.

The board will also employ a competent engineer to draw up plans for the conversion of the road from a cable system to an electrical conduit system.

The Geary-street railway line lost its franchise thru a refusal to operate cars daily as a result of the strike.

CHURCHILL LOSES BY IT.

His Edinburg Speech Will Not Help Him With the Colonies.

LONDON, May 21.—The Australian press comments on Winston Churchill's Edinburgh speech, and says it may help him to win the support of the colonies, but not with the colonies, the good opinion of which from the day he took office has been doing his best to forfeit.

The Canadian Associated Press is formed that colonials may be brought here to assist in educating the electorate in the doctrine of preference, and fiscal missionaries despatched to the colonies to preach the same gospel.

CHANGE FOR HOMESTEADERS.

30,000 Acres of Doukhobor Lands to be Thrown Open.

LANGHAM, Sask., May 21.—Thirty thousand acres of Doukhobor lands (Doukhobor lands) will be thrown open to homestead entry on June 1, 3, 4 and 5. The land is within one to fifteen miles of Langham, Sask.

The lands now available by order-in-council in Western Canada, comprising the Doukhobor Reserve, will be opened to homestead entry, commencing on the first day of June, 1907. By the order-in-council, under which this land is opened, entry will be granted for each quarter section to the first eligible applicant applying therefor at the corner of the land office at Prince Albert.

IMMIGRATION TO CANADA.

Increase of \$18,000 Over the Receipts for Period Last Year.

OTTAWA, May 21.—Immigrants to Canada during the fiscal period ending March 31 from Great Britain numbered 65,791, more than 18,000 over the same period the year before; 10,728 from the United States and 840 from Ireland, Russia and other European Japs came to the number of 6000 over half of whom settled in the Province of Quebec. In 1906, 150,000 persons from the United States have settled in Canada.

TAGGED TO HOSPITAL.

Seven-Year-Old Boy is "Forwarded" to Toronto.

James Black, a seven-year-old boy, made the journey alone from Hopkinton to Toronto yesterday with a tag pinned to his coat, with the words "James Black, Hopkinton, Ont., to the Hospital for Sick Children. Please take care of him."

The boy was accompanied by his mother, who was met at the station by a Union Station and conveyed him to the hospital.

MUST FURNISH DETAILS.

Frank Arnold's Bill to G. R. Cockburn Not Specific.

Frank Arnold, K.C., has been ordered by Master in Chambers Cartwright, in reference to his suit against George R. R. Cockburn for defending the latter in connection with the recent Ontario election, to furnish in detail an itemized statement showing the number of days and times that he acted for defendant, the various parties interviewed, the length of time occupied in such, the persons attended on and other information.

Mr. Cockburn is granted liberty to apply later for further particulars and to pay any additional sum in satisfaction of Mr. Arnold's claim as he may be advised.

BEING OF UNSOUND MIND

SENT BACK TO ONTARIO

HALIFAX, N. S., May 21.—F. E. Todd, chief of police of Turks' Island, arrived on the steamer Beta to-day, having in charge Mr. Hartley of Ontario, who was deported from the island of account of being of unsound mind. Hartley arrived on Turks' Island three months ago from New York. He has been handed over to the immigration authorities here, who will have him sent to his native place in Ontario.

POWER WAS OFF.

For some reason the electric lights went out in the downtown districts here to-day, and remained off for over an hour.

The people in charge at Niagara Falls explained, but it is thought that some transforming station went wrong some place between here and the Falls.

All Red Service.

LONDON, May 21.—Hon. Clifford, who with Mrs. Stifon, sailed for Canada to-day, per Canadiana, has been prior to his departure. He says the all-red fast service scheme is in such condition that a successful termination can be expected.

Old-time Actor Dead.

NEW YORK, May 21.—Frank Roberts, an old-time actor, is dead.

Some think water pure because it is carbonated—

charged with carbonic acid gas. That is wrong. Carbonating water doesn't purify it. Carbonic acid gas doesn't cleanse water.

Plenty of carbonated waters are just ordinary city water, charged with gas. That gas is mostly made by the action of sulphuric acid on whitening (such as is used for calcining), or from the fumes of burning coke. Pleasant, isn't it?

Even spring waters that are naturally fizzy, carbonated far within the earth, are not always safe to drink. Natural carbonation is likely to load water with more lime or magnesia than the system ought to get. So a natural fizzy water may be wholesome and it may not.

The safe way—doctors think the only safe way—for people who like carbonated water, either plain as a beverage, or as a diluent for spirits—is to get an ideally pure spring water, charged with purified carbonic acid gas, and

Carbonated and bottled under absolutely safe, cleanly, and scrupulously sanitary conditions. Water like that is zestful, refreshing, wholesome, and enhances the flavor of whatever it dilutes—liquors especially.

The water that surely meets every requirement is sold in your neighborhood by merchants who care for the custom of particular people, and in your city by the right kind of hotels, bars and clubs. It is worth asking for, and it is labelled

York Sparks

(York Springs Water, charged with purified carbonic gas and bottled at the Springs for surety of purity.)

Ideally Pure York Springs Water is the basis of these beverages: York Springs Water (natural), York Springs (York Springs Water charged with purified carbonic gas), York Ginger Ale, York Sarsaparilla, York Soda, York Peppermint Water, York Aperients (the perfect laxative).

The Mineral Springs Limited Toronto

Bridge Gives Way Under Load.

ST. FRANCIS, Que., May 21.—(Special)—While Joseph and Ovide (Special) were driving across a bridge here to-day on a large oil tank, the bridge gave way. The horses, wagon and men fell in the river.

The men escaped with injuries, but the two horses were killed and the wagon and oil tank wrecked.

Charged With Criminal Libel.

WINDSOR, May 21.—John Wilson, 70 years of age, was committed for trial yesterday on a charge of criminal libel, preferred by David Clarke, a councillor of Sandwich West Township.

Wilson was said to have written and circulated some verses which Clarke construed as an attack on his character.

KING'S PHYSICIAN DEAD.

FALMOUTH, Eng., May 21.—Sir Joseph Fayrer, physician-extraordinary to King Edward, is dead.

Fire in Varnish Works.

An explosion of a dry paint mill on the premises of the Imperial Varnish Co., 6 Morse-street, caused a fire which did damage to the extent of \$700 yesterday.

Davies' Tailoring Co. Wound Up.

An assignment having been made to J. P. Langley, an application was made at Osgoode Hall yesterday before Justice Meredith, for an order winding up the affairs of the Davies wholesale Tailoring Co., 555 West Queen.

Electricity vs. Medicine.

An Interesting Discussion of an Interesting Subject.

This subject is one that is occupying a prominent place in the minds of all progressive medical men. The success attained with electricity has even astonished some of its strongest advocates. Dr. Poore, writing upon the subject of electricity in one of his well-known works, says: "No other single varied applications—for some of which it stands alone and supreme." That opinion is shared by those who have made a close study of the subject. The wonderful success of electricity in cases where drugs have utterly failed has forced belief in the efficacy of the latter almost to the vanishing point. Electricity is the medicine of the future, writes another authority.

The following interesting article by Professor Edgar L. Larkin, discussing "The New Physiology," is illustrative of the trend of thought—hour by hour point to one grand conclusion—the substitution of nature animals and man are intimately related with it. All life, force and mind are intimately related with it. All matter and nerves correspond to wires. It is now certain that transmission of the life principle is electricity. The electric age is here. Drugs are hard over them is electric. The human system is an electro-chemical battery, and hit on all sides, and an intelligent physician tells me that he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power.

That electricity is a powerful curative agent is a fact too well known to require further illustrative proofs. It is a positive cure for all Stomach, Liver, Bladder and Bowel complaints and all forms of weakness. How many men and women are going through life mere pigmies of what they should be? They lack interest in everything—enjoy nothing. And persons can be made strong and robust, perfect specimens of health and their nerve centres at night, while they sleep, and in the morning there is a transformation.

DR. McLAUGHLIN'S ELECTRIC BELT

Has cured thousands, and is certain in every case undertaken. W. L. Collescott, Esq., one of the best-known scientific Electrical Experts in Great Britain, has this to say of it: "I have in the course of my experiments with the Body Battery, which have now extended over several years, tested its power in various ways rather severely and am bound to admit, greatly beyond my initial expectations."

Dear Sir:—I now send you my statement in regard to my Belt. It has done wonders for me since using it. The pains are all gone. I have gained weight and am sleeping well. I feel sure that in a short time I will be entirely cured. Wishing you continued success. I remain, with best wishes, EDWARD McLAUGHLIN.

NOT A CENT UNTIL CURED.

That is my offer. You take my latest improved appliance and use it in my only condition is that you secure me so that I will get my money when you are cured.

FREE BOOK—Call and test my Belt free, or if you can't do that, send for my book about it, a free. No charge for consultation. CALL TO-DAY. SEND THIS AD.

DR. McLAUGHLIN, 112 Yonge Street, Toronto, Can.

Office Hours—9 a.m. to 6 p.m. Wednesday and Saturday until 8.30 p.m. 5-1607
