An arrange of Ontario. In the days when Abarley at 75c to \$1 the farmer thought \$6 aper cwt, a good price for dressed hogs.

Surely, then, it must be a bonanza when peas are down to 45c, barley 25c and oats 25c, with hogs bringing \$5.75 live weight and very likely soon to be worth \$6 and over. In this industry the farmers have a everitable gold mine if they will only see to it and raise the right kind of hogs and feed them on peas and barley, which our own country is adapted for. The demand at poresent for Canadian pork is greater than the supply, and English and Scotch dealers we only keep on as we have begun. And as Toronto is the centre of all industries for Ontario and best live stock market in the Dominion, what is there to hinder it from becoming the Chleago of the Dominion if the farmers only see to it that the tright kind of cattle and hogs as well as sheep are raised to keep the British market which we have already captured to so large an extent?

The Toronto live stock market appears

Cattle receipts at Chicago to-day 9000; market strong to shade higher.

Stocks of wheat at Port Arthur and Fort William are 1,611,924 bushels, as against 1,744,464 bushels a week ago.

The World's visible supply of wheat, according to Bradstreet, decreased 4,946,000 bushels the past week. sheep are raised to keep the British market which we have already captured to so large an extent?

The Toronto live stock market appears to be losing its hold upon the farmers, as not half as many frequent it as formerly. Whether it is that the building the new City Hall in fresh quarters is the cause or not one thing is certain the market is not half as well patronized as it was a few years ago. Another thing is sure, when the new City Hall is occupied and the old one descreted, a lot of expensive property which was once the business centre of our city will depreciate in value to a large extent.

The returns from the Western Cattle market show that year by year Toronto is forging to the front as a market for cattle and hogs and as the chief centre of the Canadian packing industry. There have been attempts to take the trade to Montgreal and other points; but failure has resulted in every case, and Toronto, if, its stock receipts increase for a few years at the present ratio, will hold a position as audisputed in Canada as is that of Chicago in the United States. The market returns for the first six months of 1847 show a heavy increase in the receipts of both cattle and hogs. The figures are: 67e 72%e New York

Meat—The market opened stronger on higher foreign cables and buyings by Allen, Grier, Lindbloom, Counselman, Day and other prominent shorts, but none took more than 60,000 bushels. Bartlett and Frasier were the best sellers, July wheat was difficult to trade in, and the only ones in it are the elevator people and receiving houses, who have sold the new crop to arrive. Some of them got afraid new wheat would not come in, and covered. An effort was made to make Barrett cover his September shorts; aside from that there has been no particular feature in the market except the buying on St. Louis orders by Allen, Grier, and all little by Mitchell & Baker. Outside orders with mattresses and pillows, to RhNT during Convention
