REWARD-OUR HISTORIAN.
 Many eminent men ask the Government to pay Justice to Dr. Kincaid.
 The President and Council of the Canadian Institute, Toronto, have transmitted to the Governor-General-in-Council a memorial signed by several ten volumes of men in the different provinces, including Heintzman, governors, promoters and ministers of provinces, members of Parliament, mayors and aldermen of cities, archbishops and clergy of the Roman Catholic Church, the Archbishop of Metropolitan, bishops and clergy of the Anglican Church, the moderator and ministers of the Presbyterian Church, the President of the Conference and others of the Methodist Church, the chairman and others of the Congregational Union, chancellors, principals and professors of universities and colleges, chief justices and judges of courts of law, presidents and members of learned societies and other persons of station throughout the Dominion.
 The memorial points out that Dr. William Kincaid has devoted eleven years of his life to the task of writing his History of Canada, a work of ten volumes, of very great value to the country, of which nine volumes have been published at the cost of the author, whose resources are now exhausted, and calls upon the Government to acknowledge the services of Dr. Kincaid to the country by providing funds to enable him to complete the work and publish the tenth and final volume.

MAY WHEAT SOLD UP TO \$1.70

At Chicago, With the July Option Going at \$1.06 3/8.

Further sensational advance of 20c per bushel in wheat—Other American Markets Sympathize—Liverpool Also Higher—Consols.

September wheat sold up 3/8c to 87 1/2c and the Dec. option up 1/2c to 83 1/2c. Corn is 1/4c higher at Chicago and 1/2c lower at Liverpool. Oats are firmer. Flour is stronger in sympathy with wheat. The world's wheat shipments for the week are placed at 8,400,000 bush.

Receipts of wheat at Minneapolis and Duluth today, 372 cars, against 285 cars the corresponding day of last year. Liverpool receipts at Chicago today: Cattle, 389; hogs, 18,000. English farmers' deliveries of wheat the past week totalled 30,000 quarters, at an average price of 42s 4d.

Receipts of hogs today at principal Western points, 45,900, against 35,800 same day last year. The Michigan State crop reports for May make winter wheat conditions 85 per cent. which is 12 points higher than last year. Less than 1 per cent. of the area will be plowed up. Fruit outlook promising.

Primary receipts today: Wheat, 453,876 bush, against 380,000 bush last week; Corn, 794,242 bush, against 450,000 bush. July wheat puts at Chicago 31, calls \$1.72.

Exports Decline.
 The big advance in the price of wheat has had the effect of lessening the volume of exports for a long time. The total quantity of wheat for the week are placed at 2,478,773 bush, against 4,100,000 bush last week, and 1,790,522 bush the corresponding week of last year. Corn, 6,164,000 bush, against 4,210,000 last week and 3,477,000 last year.

World's Wheat Supply.
 Bradstreet gives statistics regarding the world's wheat supply which will be available for present use. The total stocks in the United States on May 1 this year were 34,000,000 bush, the smallest held at that date for 10 years past. 17,000,000 bush below the total held a year ago, 40,000,000 below that held in 1926, and 10,000,000 below that held on May 1, 1935. The available supply in the United States and Canada fell off 1,000,000 bush this week. The heaviest decrease shown in any single month for a long time. The export situation, though less acute, is still an interesting one. The total held on May 1 this year was 6,000,000 bush, 1,000,000 smaller than a year ago, and 3,000,000 smaller than the total held on May 1, 1935. The total stock in Great Britain, Canada, India, and elsewhere, 1,000,000 bush smaller than last year, 2,000,000 bush smaller than on May 1, 1936, and nearly 3,000,000 bush smaller than at this time in 1935.

Outlook for Wheat.
 The Monetary Times does not think the wheat outlook good this spring. During the month of March the withdrawals from the United States Government bond and stock houses for consumption were less than 5,000,000 bush, against 10,000,000 for the same month of last year, a falling off of over 50 per cent. The most unfavorable outlook in the world's wheat trade is that of increasing weakness in the Spanish market. The upspring in Porto Rico comes from the general weakness in the Spanish market, and runs on the Banks of Madrid. The upspring in Porto Rico comes from the general weakness in the Spanish market, and runs on the Banks of Madrid. Chicago Cattle.
 Henry A. King & Co., 12 King Street East, received the following despatch to-day from Chicago: The past week has been a most remarkable one in the world's wheat trade. The general markets not only maintaining the high level of the week, but scoring further large gains during the week. The July delivery Liverpool has led Chicago, which has followed it. The London market has advanced here has been 1 1/2c. Answer is up 5/8c, while Paris has maintained the expectations of even the most sanguine, bulls selling at \$1.22 up to \$1.70. Review of Montreal Stocks.
 Montreal, May 7.—It has been remarked that since the fundamental basis for a recovery in the securities market is the prospect of an increasing volume of business in the United States, the strength in the New York market is of great importance. The week may be taken to confirm the view that the market is in a state of uncertainty, and that opportunities are abundant to men of courage and sound judgment.

to holders, and on account of the weakness shown there has been considerable selling of wheat today and almost the entire list of contracts for the week were 22,838,000 lbs., but hog receipts are large and this has a bearing on the market.

The War's Effect on the Market.
 The phenomenal appreciation of Wednesday, Thursday and Friday in the price of wheat on the world's markets was followed by further sensational gains yesterday (Saturday). At Chicago May wheat sold at \$1.70 and closed at \$1.67, while the July line finished at \$1.66. These figures represent an advance of 17c in May and 5 1/2c in July. Other American markets were strong from 1937 to 1938. At Liverpool May moved upwards 3/8d and July 1/2d, though Paris reported a reaction of 1/2c to 7/8c.
