DURHAM LIBERALS SPLIT Continued From Page 1. Besides, the very one confesses that Robert Beith is an exceptionally nice man, still the story is told when that is said, as a representative of the people of Durham he is nearly young in years in the house. His voice is never heard in debate, and the reputation of Durham won for it by Edward Blake is not sustained in the house of commons. The coming fight will be a sharp and close one, and we want a man who will put the ginger into it. Robert Beith should give some one else a chance.

Has Earned a Rest. While this may be true, it still remains that Mr. Beith has fought valiantly for legislation in Durham in 1891, again in 1892, and in 1893, and by the election of 1902. He may have earned his rest, but it should, his friends declare, be taken in the senate. His friendships are almost wholly in the house of commons and in Durham, and for him to be away from Ottawa would be for him to be sadly lonesome. So it seems that there is no harmony in the Liberal ranks in Durham, and how it will ventilate the faces alone.

MR. SIMPSON'S WITHDRAWAL. Port Hope Times: The sudden and determined resignation of D. Burk Simpson, K.C., of the presidency of the Liberal Association of Durham, has startled the Liberals of the constituency, and has drawn attention to the grave cleavage that exists in the ranks. Mr. Simpson is a clever lawyer, an ardent politician and a man who is widely respected. He has for a long time filled the position of president of the West Durham Liberal Association. He was freshly re-elected in the probable choice of the convention of the Liberal candidate for the constituency of Durham, and he was unanimously chosen as president of the new Liberal Association for Durham. But Mr. Simpson has resolutely declined their post and has washed his hands of the Liberalism of Durham. At the nomination meeting his displeasure was made evident, and it was only by breaking up the meeting at the earliest opportunity that a violent quarrel was avoided. This has not sufficed to hide the serious split which exists in the party ranks. It is widely known that Mr. Simpson is disgusted with the conduct of party affairs in Durham, and that his influence is little likely to aid Mr. Beith at the next election. And Mr. Simpson has a large following whose aid the party candidates will sorely miss.

THE LIBERAL SPLIT. Port Hope Times: There is a serious lack of harmony among the Liberals of the constituency of Durham, which presents a striking contrast to the unanimity and enthusiasm which prevailed in the Conservative ranks. For a long time the rivalry among the aspirants for the Liberal nomination, but their hopes have not been disappointed in this respect and, in addition, Mr. Beith has secured the party nomination, and their aspirations to political distinction are again shattered. D. B. Simpson, K.C., Dr. L. B. Powers and M. A. James each desired to be

Street Car in a Blaze. Somebody lost his nerve and pulled box 21 at 10:40 last night because trolley 564 of the Young-street line was ablaze from a blow-out. The driver of the car stopped the fire before the disfigured firemen reached. The passengers in the car got a scare, but no one was hurt.

Work Stopped at Island. The minister of public works has stopped the improvement of the lagoon to the east of the Sick Children's Hospital at the Island. J. T. Small complained that the plans, if allowed, would lead to the deposit of the sewage in the rear of his summer cottage. Mr. Small desires prevention. Dr. Sheard thinks in view of the high level of the lake there may be some ground for Mr. Small's complaint.

SENSATION FALLS FLAT. AID FINDLAY IS DYING. Dr. McNichol Thinks He May Live Till Morning, But Not Much Longer.

Hamilton, July 8.—(Special)—The sensation that was worked up over the finding of the body of a dead infant in the marsh Sunday afternoon fell very flat this evening when Dr. Carter and Freeman swore an unquested conducted by Coroner Griffin that the child was stillborn. One of the jurors, named Williamson, was not satisfied with the doctor's evidence, and said he had heard something in connection with the case and would press for a further inquiry, in spite of that the jury brought in this verdict: "We find that the deceased unknown child was stillborn and was placed in the water by a person or persons unknown."

Dr. McNichol was with Aid Findlay until 11 o'clock to-night, and when he left he said the patient had only two hours to live. He thought that he might live till morning, but was even doubtful of that. The doctorman was conscious up till 6 o'clock this evening. Police Magistrate Jeffs has taken a decided course in reference to a grant to Mrs. Barron, wife of P. C. James Barron, who was murdered while on duty. At a former meeting of the police commissioners he moved that a grant of \$100 should be given to her to cover the funeral expenses. He states that Mayor Morden promised to aid her in getting the grant passed. The mayor takes the ground that Mrs. Barron does not need the money, since she drew \$1000 from the Police Benefit Fund, under several houses, and has a growing family at work. Mrs. Barron has written a letter to the local papers defending her husband's expenses. He states that she is demanding to know why Miss Mills, a lady friend, staying with her, and another had not been called at the inquest.

Happens. Albert Krizer has begun an action against the Westinghouse, Church, Kerr Company for \$2000 damages for injuries. Paul Wyrzyk, 49 Avenue-street, and dose of Paris green last night. He will recover. Several Conservative clerks in the post-office, and one Liberal, had their salaries increased, and the Grigs are making howl.
