In these days of almost universal coats and waistcoats, cravats naturally merit consideration, and the black satin double bow with long ends that reappear beneath the gliet, is a good model. A smart variation is a black moire stock finished with loops, not arranged as if it were a bow, but one loop placed above another, graduated in size, the ends that reappear at the weist being fringed and then drawn into a ball, a new treatment for fringe.

To Keep Salt Dry.

To prevent salt in saltcellars from becoming damp and lumpy, when filling them put in 10 to 12 pieces of rice. This will not come thru the holes in the cover of the saltcellars, but will break the lumps of salt and gather the moistures thus the salt and gather of the salt the lumps of salt and gather the moistures the salt and gather the salt a ture; thus the salt is always dry and

Do You Hear Well?

We wish you to see a new electrically sensitized hearing device called the Electrophone, that instantly causes even the deafest people to hear clearly.

The very best result we can promise you as a reward for using the Electrophone is the complete, lasting restoration of your hearing.

Next to that in importance is the certainty that the moment you apply this marvellous little instrument you will be able to hear clearly and distinctly, either in public or in private.

This scientific electrical sound conducting instrument fits snugly over the ear, as shown in cut its purpose is to magnify sound waves and throw them directly on the ear drum in a manner according to nature. The result is your deaf ear is exercised just as well ears are, and after a while most people find their hearing has become as good as ever. Meanwhile, however, with the Electrophone attached you can hear even the faintest sound without strain, effort or embarrasment, and your pleasure is vastly increased by the assurance that no harm is being done, as is the case with artificial ear drums, trumphets, etc., that poison and ruin the ears of all who use them. Come and test the Electrophone Free. We agree to make you hear. You will make tried an Electrophone exactly suited to your degree of deafness, you pay a deposit on it and try it at home. Those who cannot call should write for our free illustrated booklet and list of satisfied users of the Electrophone.

SENT ON TRIAL ANYWHERE IN CANADA. Remember, the Electrophone will open up a new world to you. Perhaps you are only looking for temporary relief, but you will find that It will do much more. The Electrophone gradually restores the natural

hearing.

We r tisfy 99 per cent. of our patrons, because we sell all instruments subject to one full month's trial. Free trial to all who call. Free bookiet to all who write. Write to DEPT. T. CANADIAN OFFICE.
