## SECOND BIG FIRE BREAKS OUT AT OTTAWA

FIRST PHOTOGRAPHS OF FIRE THAT DESTROYED THE PARLIAMENT BUILDINGS

These photographs were taken early yesterday morning, while the ruined buildings were still smoldering, and the ice-encrusted firemen and soldiers continued to pour tons of water in to them. The first photograph shows the east wing, with roof caved in and walls coated with ice. In the centre is a general view of the ruined building, showing all that is left of the clock tower and the roof. The one on the right's hows the firemen playing the hose on the wing leading to the library, which was saved.

Placed Under Arrest on Orders Issued by Col. Sherwood.

WINDSOR, Ont., Feb. 4.—Taken from a Canadian Pacific train at the Michigan Central Depot. Windsor, shortly after 2 o'clock Friday afternoon by Provincial Officer James P. Smith, Chas. Strony, 28 years old, who said he was born in Belgium, being held at the police station on fuspicion of being implicated in the destruction of the parliament build-

ngs at Ottawa. Officer Smith received instructions from Col. J. D. Sherwood, chief of the Dominion Police, by telephone to arpominion Police, by telephone to arrest Strony, as he was believed to be a member of the gang which started the fire at the parliament buildings. The description given by Sherwood was vague, but the number of the railway, ticket held by Strony tallied with that given by Sherwood over the phone.

Quick Action. Difficulty was experienced in getting telephone connections with Ottawa. and it was not until 1.40 o'clock that Smith was able to understand the or-der of Colonel Sherwood. The Can-adian Pacific train was due at 2 O'clock, but to make sure that Strony had not traveled via Grand Trunk, the officer first met the 2.35 Grand Trunk train at the depot of that company after 'phoning instructions to customs officers at the Michigan Central depot, to hold the Canadian Pacific train until

#### FIRE CHIEF **HEARD FIVE EXPLOSIONS**

Ottawa Fire Was Set, and Well Set, Says Graham.

JAMESON CONFIRMS

Member for Digby, N.S., Was Thrown Bodily Thru a Door.

OTTAWA, Ont., Feb. 4.—Fire Chief Graham of Ottawa holds strongly that the fire which destroyed the parliament buildings was incendiary. He says undoubtedly the fire was set. "It was set, and well set," he said today. "I distinctly heard five explosions the like of which I never heard at a fire before. The explosions were not even like ordinary explosions of gun powder. They were like the explosions from shell. There was not the regular bang or crash that comes from a gunpowder explosion, but a sort of long singing zi-t-i-i-n-ng." A major of the engineers was also with him and said these were certainly shells. "One of the policemen told me that the fire ran along the floors just like a prairie fire. Why when our men from No. 8 Station, back of the city hall, got to Elgin street, they saw the smoke and flames shooting 40 or 50 feet above the building," he said. Member Heard It.

The experience of Clarence Jameson, M.P. for Digby, N.S., was thrilling, but it is also important from the point of view that it may provide as direct evidence as can possibly be obtained regarding what occurred.
