UNDERTONE WAS STRONG TODAY ON WALL STREET

Bullish Sentiment As Announcement Re Financing

BRISK TRADING DONE ON MONTREAL 'CHANGE

More Than 1,000 Shares of Brazilian, Smelters and Reserve Sold

NEW YORK, June 8.—Stock prices displayed a strong undertone at the opening of today's market. Bullish sentiment apparently was created by the announcement that no treasury financing would be necessary this quarter. Initial gains, as a rule, were small, although Dupont opened a point higher and U. S. Steel common showed an opening gain of three-quarters at 123 1/2, a new high on the current up-swing.

MONTREAL, June 8.—Trading on the local stock exchange during the first half hour this morning was brisk, with values displaying an irregular trend. Over a thousand shares of each—Brazilian, Smelters and Crown Reserve—changed hands. Brazilian opened at 98 1/2, off an eighth, later sold at 99, and in subsequent trading reacted to 98 1/2, the opening price. Smelters opened with an overnight gain of 1 1/2 points, but eased to 2 1/2 in later trading. Crown Reserve was off two points at 19 at the opening.

Other changes included Breweries, off an eighth at 63; Asbestos, off a quarter at 23 1/2, and Beaco 1/4 preferred off a quarter at 1 1/4.

Hiking 1,000 Miles Without Food

One thousand miles without food. With New York a thousand miles away by road, George H. Johnson, a gymnast director of Chicago, left Chicago the other day to walk to New York, it being agreed that he would eat no food on the way. He plans to make an average of 33-1/3 miles per day, which means a month on the road—and nothing to eat. He is shown here leaving the Chicago City Hall in company with James H. Hocking, at the left, seventy year old former walking champion.

Cheques Identify Millionaire's Body

NEW YORK, June 8.—Two water-soaked cancelled checks—a million-dollar dividend of 25 cents on common stock of Albert J. Gleason, wealthy head of the Drake Business Colleges, who disappeared from his East Orange, N. J., home last Thanksgiving, which was found in the Hudson River Friday, and a check for \$100,000, which was found in a trunk in a pauper's home, are being used to identify the body of a millionaire.

Four Drown in P. Q.

Men Caught by Strong Current and Boat Upside Near St. Honore

CHICOUTIMI, Que., June 7.—Four persons perished in a drowning accident a few miles north of the village of St. Honore yesterday. The names of the victims are: Lorenzo Gauthier, Hector Joseph and Thomas Simpson. From what little is known at present, it would appear that the four men were out in a rowboat when they were caught in a strong current and in an attempt to bring the craft back into more placid waters toppled the boat over.

Two Men Arrested in Goldfield's Murder

KALGOORLIE, Australia, June 7.—Another chapter in the mysterious murder of Inspector W. and Sergeant Pitman, which continues to be one of the greatest sensations the goldfields have ever known, was opened today with the arrest of two men on murder charges. They are Evan Clarke, proprietor of a public house, and John Trefene, a bar man.

1,250,000 BRITISH MINERS STILL IDLE—LOCAL COMPANY HAVE ONLY FEW WEEKS SUPPLY OF WELSH COAL

Although over one million miners have been idle since April 30th last, and no coal has been mined since then, a local dealer advises that from the first of June they have sufficient stock on hand to do for a few weeks yet.

The British Miner has a method of existing on very little food when he is idle, as he remembers back in 1919 when they were on strike a little better than seven months. The output of this area was in favor of the miners, but even with a wage increase it takes a long time to make up for months of idleness.

KILLED IN RIOTS

BERLIN, June 8.—The Deutsche Allgemeine Zeitung has received an unconfirmed report that 18 persons have been killed and 80 wounded at Lemberg, in clashes between Ukrainian students and Polish troops.

MANUFACTURERS' ASSOCIATION MEET

(Continued from page 1).

REACTION SETS IN

During the autumn months and December and January, improvements in a number of departments of national activity was evident, but in February a reaction set in, many factories went on short time, and the present outlook for industry and business, while retaining some encouraging features, is not so bright as it was for fifty years Canada has been building up her industrial system. It is certain that in time a similar protection to that afforded by other countries. That is the universal method, and it is possible that Canada can follow the opposite method and retain her industries?

CONFIDENCE SHAKEN.

Confidence in the industrial future of this country has been shaken. The great fiscal need in Canada is stability. We have been promised stability frequently, but every year sees further tariff reductions. What industries will be attacked next? How can industry proceed with assurance under such conditions? But stability alone is not enough. Stability will not restore the woolen industry, which would be given that amount of protection which will enable it, first, to revive, and, secondly, to expand.

CONFEDERATION ISSUE

But the strongest vitality and the greatest natural wealth cannot resist indefinitely the results of a fiscal policy which, if pursued, can only end in national disaster. It is the issue of tariff reduction that has been followed for the past eight years is continued. It is certain that in time the great industries of Canada will disappear and that only a few, based on adjacent natural resources and with a small local trade will survive.

STRANGE ANOMALY

In view of these favorable international factors, greater agricultural production power in Canada, and the adjacent prosperity of the United States, it is strange that the Canadian people are not more interested in the statistics of our export trade.

TAXATION RISING.

Domestic, provincial and municipal taxes take every year one-quarter of the value of the net production and about one-seventh of the value of the gross production of the country. It is estimated that they take about one-half of our national surplus. The Dominion, provincial and municipal debts have been growing steadily since the war, and have reached enormous proportions. Apart from war debt, this situation has arisen to a very considerable degree from extravagance. Apparently, Canadians want to live on the scale of the United States, but forget that we have not Uncle Sam's pocket-book. The inevitable happens—our debt and taxes go up and the United States to borrow.

MEMBERSHIP REPORT

The report of the membership committee included the following paragraphs: During the past year ending April, 1927 new members joined the association; 275 memberships were cancelled; leaving a net increase for the year of 1,000. The summary by divisions is as follows:

Division	Members
Out of business	37
Non-payment of dues	17
Amalgamation of firms	17
Additional representatives no longer required	44
Not able to pay fees owing to trade conditions	96
In liquidation or not operating	275

EXECUTIVE REPORT

The report of the Executive Committee was in part as follows:

REVENUE AND EXPENDITURE.

The treasurer's report has shown that the total revenue of the Association for the year for membership fees was \$200,271.50, and that the cost of operation was \$208,842.46, leaving a deficit of \$7,570.88. Against this is set the profit from "Industrial Canada," \$2,431.49; and the profit from the "Canadian Trade Index," \$2,066.81; and interest from investments \$6,872.66; leaving a net surplus of \$8,036.04.

Bank Robbers Shut Employees In Vault

DALLAS, Texas, June 8.—Five masked robbers locked eleven officials and patrons of the Jefferson Bank & Trust Company of Oak Cliff, a suburb, in the vault, scooped up between \$15,000 and \$20,000 in currency and fled to an automobile. M. G. Young, president of the bank, was one of those forced into the vault.

R. C. Barnes, cashier, also shut in the vault, caught the tumbler as the combination turned and freed the imprisoned party within a few seconds. He fired five shots at the fugitives.
