RICH MEN'S WIVES STUDY MILLINERY

Seventeen Millionaire Women in Philadelphia Try Useful Hobby.

Under the auspices of the Y. W. C. A. in Philadelphia, a truly remarkable work is being accomplished along the line of millinery. Classes are held on two afternoons and evenings of each week in every branch of the association in that city and have grown in the last six months from a membership of 6 to 750. The instructor is Madame Lucille Thausant, a Frenchwoman, who has abroad every season and brings back the latest ideas from Paris. Formerly Madame Thausant was a designer in one of the largest importing houses in New York City.

In one of the classes are the wives of seventeen millionaires, and there are no more enthusiastic workers. These women of leisure and wealth have found that no amount of money can buy the touch of individual charm that their own trained fingers can impart to their hats, and are absolutely in love with the new occupation.

Materials are supplied to the student of millinery at the very lowest cost, or she is allowed to bring her own supplies if she so desires. Sometimes the young girl brings only patches, but from these she manages to construct a very pretty hat, and frequently the happy little milliner wears the product of her own hands a few hours after she brings her goods to her teacher. Off she goes to the theatre, the dance, the social, or whatever function may be, and is just as happy as a lark in her smart new creation, for, as Madame says, "a pretty hat on one's curly head means so much when one is young."

CHAMBERLAIN'S They Make You Feel Good

Trans Canada Limited.

Effective May 31 from Montreal, Toronto and Vancouver, the "Trans-Canada Limited" train service will be re-established by the Canadian Pacific Railway Company.

This splendid train, carrying standard sleeping car equipment only and making the fastest time between terminals of any transcontinental train in America, leaves Montreal, Windsor street station, at 8 p. m., and Toronto, Union station, at 9 p. m., Eastern Standard Time, daily, consuming eighty-eight hours between Toronto and Vancouver, and ninety-two hours between Montreal and Vancouver, also reaching Winnipeg in forty-one, Regina in fifty-one, and Calgary in sixty-five hours.

The schedules are so arranged that

BETTER THAN HARD COAL
Soft coal so free from soot that it does not make whistlers on stove covers or pipes and does not mat or cake when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.
