BEC ELECTION TALK IS HEARD

for Act, Endorsement of ischereau and Get Ahead Federal Balloting.

trial, June 7-In political circles it is held that provincial election will be held soon, either next fall or spring. The reasons given are that the federal government is in a position to introduce a bill for the purpose of amending the constitution and confirming the appointment of Hon. Mr. Taschereau as premier, since he has not yet been sworn in.

It is considered good policy to have provincial elections before the federal elections, when the strength of the federal government will be known.

PAINT THE HOUSES.

Editor of The Times: Hundreds of men are out of employment in the city of St. John today, and will not turn their hands to work of any kind. Hundreds of owners in this city own property which has not been painted for ten or twelve years. They could buy a good painter for every one of their houses, and make their houses look neat and clean. They could employ the regular painter for the outside work, if the painter is out of work, plenty of work for every one of them. Property owners would be well advised to have their houses painted this summer. It is the best thing they can do for their property. What is the matter with you?

DODD'S KIDNEY PILLS

FOR ALL KIDNEY DISEASES. RHEUMATISM, GRAVEL, DIABETES, BACON, 4087 THE PROGRESSIVE.

FIFTY-EIGHTH ANNUAL MEETING OF THE MERCHANTS BANK OF CANADA

Sir H. Montagu Allan, the President, Draws Attention to the Principal Features of Bank's Progress During Year of Expansion-Bank Now Has 400 Branches and 2,997 Shareholders.

D. C. Macarow, General Manager, States That a Certain Optimism is Not Only Warrantable and Desirable, But Even Essential-Reports Gain of \$7,000,000 in Interest Bearing Deposits For Year.

The fifty-eighth Annual Meeting of the Shareholders of The Merchants Bank of Canada marked the close of a satisfactory year for the Bank. The annual report indicated that business had been well maintained during the period of readjustment.

Sir H. Montagu Allan, the President, in his address on behalf of the Board of Directors, dealt particularly with the main features of the progress of the Bank during the past year and pointed out that there were now 400 branches. In addition, there was a steady increase in the number of shareholders of the Bank, the total number now being 2,997, as against 2,622 a year ago, an increase during the year of 375.

D. C. Macarow, the General Manager, in a constructive address, took the view that at this stage of Canada's development a certain optimism was not only warrantable and desirable, but, indeed, essential, for it begets that stimulating measure of constructive effort, energy and courage through the application of which the obstacles the country now has to face would in due course be more surely and readily overcome.

Mr. Macarow also referred to the general business of the Bank and pointed out the large measure of assistance which was given to the industries of the country, including support in full measure, to our largest individual source of production and wealth-agriculture. This is reflected by total current loans and discounts of \$109,188,000.

At the present special reports of the Bank indicated that crop conditions throughout the country were at the present exceptionally promising.

The general depression in business which has been felt to a greater or lesser degree in every country in the world for some months past, has effected the business of the Bank to some extent, but we hope the low point of the depression has been passed, and that there will soon be a change for the better. In the meantime, although we do not feel there is any cause for anxiety in regard to the future prosperity of this country, we feel called upon to advise our customers to be very cautious before undertaking new commitments. The coal strike in England, which will not doubt result in the loss of a great deal of trade, and the unrest and discontent which seems to prevail in nearly all the countries of Europe, give rise to serious financial problems, which have not to be reckoned with, but no man in this country, who is strong and healthy, can afford to be a pessimist for any length of time. The known and undeveloped resources are sufficient to ensure prosperity.
