Given Another Month.

Washington, July 26.—Professional baseball players were given until September 1 to seek essential employment or be called to the colors in an order issued by Secretary Baker today, denying the application of the national baseball commission that the effective time of the work or fight regulations be extended to October 15.

The secretary said that the limited extension of time was given because of the representation made that baseball players may have been put in a less favorable attitude than others affected by the regulations because of their reliance on the inclusion in the terms of the order would not be decided until a case had arisen. He made it plain, however, that the war department is interested solely in the strengthening of the nation's military forces as the winning of the war is regarded as the first consideration.

WAITING FOR THE SQUEAL.

Small Boy's Comrades Had Followed Him to the Dentist's.

"I want to have a tooth drawn," announced the small boy with the steel gray eyes, "and I want gas."

"You're too young to have gas, my little man," said the dentist. "Besides, I'm sure you aren't afraid of being hurt. Sit still and be a man."

"It isn't that at all," said the boy, "but I'm afraid I shall not be able to help giving a bit of a squeal when it comes out."

"Well, that won't matter at all," said the dentist. "I'm sure I shall not mind."

"No, but I shall. Look out of that window."

The dentist looked out and saw a lot of grinning lads standing on the sidewalk.

"They're all the kids I've fought and whipped," said the small patient, "and they've come to hear me holler."—Baltimore Evening Sun.

London, July 26.—It is announced officially here that Japan has decided to accept the American proposal to assist the Czech-Slovak armies in Siberia.

Soviet Position Serious.

OUR FRIEND THE DOG.

A Few Reasons Why He Should Be Conserved and Cherished.

(Toronto Mail and Empire)

A watchful correspondent of The Mail and Empire suggests that dogs ought to be killed off in wartime or else such a stiff tax imposed upon their owners as greatly to reduce the dog population.

Similar anti-dog views have been expressed since the war in England. Only the other day Lord Claud Hamilton said that pet dogs are a nuisance and that if he had his way he would "slaughter all the Pekinese dogs in the country and have them made into meat pie."

Not long ago Punch presented a picture of a tough looking citizen grooming an equally tough-looking bull terrier, while a curate addressed him as follows—"Don't you think, my good man, that in keeping a useful animal, a pig, for instance, and a nice fool I'd look guine."

"Yus," growled the dog fancier, "and a nice fool I'd look guine."

Proposals to destroy dogs are founded rather on personal prejudice or ignorance than on a consideration of the advantages to be gained by their extermination. The assertion that they consume much food that might better be converted to human use is not justified. As a rule dogs live on table scraps and odds and ends of food which would otherwise be wasted. As for the Hamilton suggestion about making Pekes into meat pies, it is probable that all the Pekes in the British Isles would not provide a single enjoyable meal for one battalion.

It is true that dogs frequently kill sheep, but they also kill cats and rats

Paris, July 26.—(Havas Agency)—The Temps says it understands that Alexander Kerensky, the former Russian premier, will not make a trip to the United States as he had intended.

Orders From Kaiser.

Harbin, July 26.—(Mandarin, by the Associated Press)—Documents found on captured Magyar prisoners show that the German emperor has ordered the Austro-German war prisoners to consider the Siberian front as important as other fronts, and that there they will serve the fatherland as Austro-Germans are doing elsewhere. Promises of suitable future reward are made.

and thus help to square the account. In thousands of farmhouses they constitute an invaluable guard for the women folk. They even do such chores as driving up the cows, churning the milk, fetching and carrying and performing other services that make amends for the undeniable fact that they get their hair on the furniture and come into the kitchen with muddy paws. At the front they are doing war work of undeniable value. In Belgium they are beasts of burden. They carry messages from the trenches to headquarters in the rear. They guard against enemy raids; they locate the wounded lying in No Man's Land, and are a real pal to many thousands of homesick soldiers. A proposal to abolish dogs is about as sensible as a proposal to abolish nephews, and has about as much chance of succeeding.

REPLACING THE HORSE.

Mrs. Overwater had a deadly gleam in her eyes as she entered her butcher's and said in a withering voice: "Mr. Alchibon, how do you account for the fact that there was a piece of rubber tire in the sausage I bought here yesterday?"

"Ah, my dear madam," responded the butcher, rising to the occasion, "that just serves as an illustration of how the motor car is replacing the horse everywhere nowadays."—Pittsburgh Chronicle-Telegraph.
