Fredrickson Base Ball

Fredrickson Gleaser—Producing a three-time pennant winner is a big job in baseball and there are not many cities able to boast of the same distinction which Fredrickson thus enjoys. Since the inception of the New Brunswick and Maine Leagues not a money-making institution, but as a matter of civic pride, in which different enthusiastic citizens have given freely at much sacrifice to their private affairs—and only the loyal support which has been always given by the public generally has made it possible to carry along the club. The winning of championships both last year and again this year has resulted from careful building upon the foundation properly laid in 1911.

The Round-Trip World Trip

Managers Callahan of the White Sox and McGraw of New York have received telegrams from M. D. Bunnell of Chicago, director of the Glaxo White Sox world tour, saying that the latter had left Chicago for the Pacific coast. Bunnell is on his way to the Orient to book games and make other arrangements for the ball team. He will visit Japan, the Philippines, come to the Glaxo and other lands in advance and meet the teams somewhere in the Far East, then conduct them through Italy, Germany and other countries.

McGraw has just written to the various National League clubs seeking sanction to do business with such players as he may want to take to fill up the Glaxo roster. Most of his team will be Giants, but if there are any places to fill he wants to have first class men for the berths. He already has obtained the consent of Garry Herrmann to take Bob Becher along. Callahan also is after the best material he can get in the American League and he figures that Walter Johnson, Tris Speaker, Ty Cobb and Falcenberg or Gregg will be members of the White Sox troupe for the winter's round-the-world swing.

Great Pitching

August has been a great month for the minor league pitchers. Pitcher Wurne of the Toronto team, pitched 20 innings to a 0 to 0 tie against Jersey City. Hedges of the Petersburg team in the Virginia league, shut out Richmond in both games of a double header, allowing but one hit, and Bill Powers, of the New London Eastern association,

team, shut out the leading New Haven team in both games of a double header.

Pitcher Fromme

Art. Fromme, with his old side partner, Larry McLean, catching him, pitched a good game the other day against the Cardinals, with a score of six to one in favor of the Giants. Fromme was born in Quincy, Ill., on Sept. 8, 1884. His first major league experience was with the St. Louis Cardinals in 1907, and 1908. In 1909 he went to the Cincinnati Reds, and now he is a member of the Giants. He is used chiefly as a relief pitcher.

Looks Like Newark

That Newark will win the International League pennant this fall is practically a foregone conclusion now. Speaking of the team manager Harry Smith had the following interesting remarks to make regarding causes which he believed had the biggest influence in putting his club where it is today—

"We have had good utility men," he said, "and have never been at a loss to fill in a gap when an accident occurred to one of the regulars. That is our principal asset outside of the fact that we have a good well-balanced team. We have had several players injured but we never had a real slump because the utility men were equal to the occasion. Our pitching staff has worked consistently and cleverly throughout the season, and the team have given them excellent support. Our speed in the field and on the bases has been a big factor."
