TO BE FED IN ENGLAND.

Viennese Children Are Sent Abroad for Nourishment.

Vienna, May 27.—Two hundred Vienna children aged six to fourteen, have left for England via Rotterdam, to be fed there as it is possible here. They are mostly the children of brain workers, professors, teachers, physicians, authors and musicians. Further departures of children are to follow. Many thousands of Vienna children have already been sent to Sweden, Denmark, the Netherlands, Switzerland and a number also to Italy, but the British benefaction finds greatest interest here, since every one feels this means, more than the resumption of diplomatic or commercial relations, that return to friendly relations which always existed between England and Austria before the war.

A contract was entered into yesterday afternoon by the St. John county housing board and the firm of Bourke & Griffiths for the erection of twenty houses with an expenditure of from \$95,000 to \$100,000. It is expected by Nov. 1 ten self-contained houses will be ready for occupation in McKel street, Fairville, and ten in Champlain street, West End.
