Over 120 placed last year. Many of these had to go before trying our Examinations so persistent was the demand for office help. So far this term we are receiving 3 calls to the one we can fill. Write for last year's list of those placed also our free catalogue.

**J. & S. WADE**  
Charles Street, East.  
When the steamer Titanic foundered on an iceberg, her wireless operators at once sent out the distress call of the sea, S. O. S. (Save our souls). It is alleged that the captain of the Californian ignored the call, while the Carpathia steamed nobly to the rescue. Perhaps your shoes are foundering on the streets of Ingersoll; and the wireless message they are sending from your feet to your head is, S. O. S. (Save our souls). Will you ignore the call, like the Californian; or will you be a Carpathian and promptly send them to us for repairs? They will have a new lease of life, when they leave our shop.

**Getting into the Home**  
Women buy more than two-thirds the merchandise sold in retail stores, and every woman reads the Classified Want Ads. Our paper goes into the homes and the Want Ads will reach the spender.

**THE FALL FAIRS**  
Sept. 10, 11

judgment or wishes is it ever right to hesitate or discuss the matter with him, and why?  
4. Why did Jesus not want them to make him their king?  
5. Jesus was unable for them to make him their king, but do you think it would have made any difference in his decision if the rulers of the Jews and Rome had wanted him so to be their king of the Jews? Give your reason. This is one of the questions which may be answered in writing by members of the club.  
6. Verse 46—Why was James now in great need of prayer and what do you think were the special subjects for which he prayed?  
7. If Christians consciously or unconsciously "pray without ceasing" is there still need for special seasons of prayer?  
8. Verses 47-49—Why is it that God permits contrary winds and tumultuous seas in the experience of so many of his children?  
9. What time according to Roman reckoning was the "fourth watch of the night"?

Millie was very dear to him; she had so completely taken the place of that little daughter who had died just when she would follow her father about and lay his name, that he had come to regard her as his own child and so forgot that miserable day when he found her mother dying in a garret and took the little girl to one to his home and heart. Mrs. Curzon was touched and somewhat ashamed of herself, and she made amends by seeking out Millie in her room—where the poor girl was crying quietly and beginning to fancy that there was something very wicked in falling in love—and talking to her in loving, motherly fashion, and setting her to tell her all that had happened and how Mr. Dormer and she had thought of loving each other.  
And Millie, responding to the gentleness and affection, clung to her aunt and changed her sorrowful face for a drop of joy and supreme content, and told her all about it; now, good, the first of her mother's blessing, she had loved George Dormer, and had been certain that he loved her.

it had been only hours instead of days; we have met each other, and there is no one else in the world for either of us. You will not say no? may, will you! You have not let your truth so far behind you that you can not sympathize with us. To be continued.

**THE SECRET OF LONG LIFE.**  
Do not sap the springs of life by neglect of the human mechanism, by allowing the accumulation of poisons in the system. An imitation of Nature's method of restoring waste of tissue and impoverishment of the blood and nervous strength is to take an alternative glyceric extract (without alcohol) of Golden Seal and Oregon grape root, Bloodroot, Stone and Mandrake root with Cherrybark. Over 40 years ago Dr. Pierce gave to the public this remedy, which he called Dr. Pierce's Golden Medical Discovery. He found it would help the blood in taking up the proper elements from food, help the liver into activity, thereby throwing out the poisons from the blood and vitalizing the whole system as well as allaying and soothing a cough. No one ever takes cold unless corpulent, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. The "Discovery" is an all-round tonic which restores tone to the blood, nerves and heart by imitating Nature's methods of restoring waste of tissue, and feeding the nerves, heart and lungs on rich red blood.  
"I suffered from pain under my right shoulder blade also a very severe cough," writes Mrs. W. Dore, of New Brunswick, N. C. to Dr. R. V. Pierce, Buffalo, N. Y. "I had four different doctors and none did me any good. Some said I had consumption, others said I would live—and was nothing but a live skeleton. You advised me to take Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Pleasant Pellets. When I had taken one bottle of the "Discovery" I could get up for an hour at a time, and when I had taken three bottles I could sit up for an evening and tend to the children. I took fourteen bottles in all and was then in good health. My weight is now 147 pounds."

**Better Dinners**  
"Is dinner ready, Mary?"  
"Yes, Madam—it is ready, and, I think, a great success."  
"Your cooking is improving."  
"Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."  
"That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."  
"Indeed he's right, Madam—and it requires so little attention."  
"That's fine, Mary. Will you serve dinner in a few minutes please?"

**A Double Mystery**

"I have heard, but I can hardly believe," she replied, "I am scarcely real, as any young lady brought up as I have tried to bring up my niece wanting to marry a man whom I know only know a few days."  
"An agonistic," thought George Dormer to himself, with a quick smile. "I think I shall hope around to my way of thinking, nevertheless. A thorough lady she is too. For all her little peculiarities." A thorough lady indeed she looked in her soft clinging dress of olive-green satin, trimmed with velvet of a darker shade, and adorned with points here of a value that made the "Tiger" report speak low and hold its breath when they spoke of it. Mrs. Curzon prided herself on her taste; it was an heirloom in her family, which was ancient, though poor, and she loved to wear it and expatiate on its exceeding beauty and rarity whenever she could not get a chance. She saw the artist's eye glance at it as he spoke, and was mollified by the admiration she read in it.  
"Love takes no count of time," the young man said. "As I told Mr. Curzon it would have been the same if
