IT WAS A WILD DAY FOR SHIPPING IN THE BAY

Pilot Boats Were Partly Disabled—Steamer In Ishowen Head Is Overdue.

The shipping that was caught out in the bay yesterday had a rough time. The pilot boats Howard D. Troop and David Lynch were out in the thickest of it and arrived in port this morning somewhat disabled. The Troop had her main boom broken. The Lynch lost both anchors and chains and had her foresail blown away.

The big Donaldson liner Athena rode the storm out in the bay and came into port this morning docking at Sand Point where her 600 passengers disembarked and will go west this afternoon. The Athena had a rough voyage out but sustained no damage.

On Tuesday when the Allan liner Sardinian arrived in port Pilot Henry Spens reported that the head liner Ishowen Head was passed off Blonde Rock, steaming only about two knots an hour and apparently with disabled. She did not, however, ask for assistance. The tug Lord Kitchener was dispatched down the bay in search of the disabled steamer, but returned about 10.30 o'clock on Tuesday night for shelter, and Capt. Stevens of the Kitchener reported being unable to locate the head liner. It is thought that with yesterday's heavy storm the steamer has put out to sea. Up till two o'clock this morning the local agents, Wm. Thomson and Co., had received no word from the steamer.

It is thought that the disabled boat will limp into port soon.

FULL CITIZENS' TICKET BEING ARRANGED FOR LOCAL CONTEST

Announcement Tomorrow of Monday—Strong Effort to Defeat Ald. Vanwart—Possible Candidates—Delegation to Fredericton Today.

By the first of next week, or possibly by tomorrow, announcement will be made of a complete ticket to contest the coming civic election against the present board of aldermen. Efforts have been put forth during the past two or three weeks to get a sufficient number of men to form this ticket, and while some yet remain to be seen, it is hoped that by tomorrow the names may be ready to place before the people. One or two of the aldermen now in office, including Ald. Vanwart, will likely be retained, but the candidates will go before the voters as a straight citizens' ticket, and it is intended, will put up a stiff fight. Until the whole list of candidates is complete, no names will be given out, but it is pretty well known that J. W. Vanwart, A. A. Wilson, and J. King Kelley will be among the number.

It is intimated that under certain conditions John Sealy and G. Fred. Fisher would consent to become candidates, but whether they will join the proposed ticket is doubtful. A dead set is being made against Ald. Vanwart and Ald. Sprout, the campaign being directed, so great rumor says, by those favoring the ward system. Ald. Vanwart is especially to be turned down, and against him his opponent at once arranged with the premier that the St. John bills should not be taken up until a delegation representing the citizens could be heard. The bills will not be taken up for further consideration until tomorrow. This evening the delegation will go to Fredericton and will tonight meet the members of the municipalities committee with every hope of success in their effort to bring into effect street paving bills held up.

The following delegation will leave for Fredericton this morning: J. H. McRobbie, O. H. Warwick, Ald. Vanwart, Dr. A. D. Smith and A. O. Skinner.

Yesterday's storm will cause the next civic pay-roll to be increased by many dollars, as men were employed today in removing snow from the streets. The probability of a thaw setting in has made it necessary to employ much snow as possible removed with haste and as a result a great number of laborers are working on the streets today. The storm which raged Tuesday night and yesterday, abated shortly before six o'clock last evening. The snow ceased to fall, except in scattered furries, at this time but a high wind blew until well on into the night. The wind changed from the southeast to the northwest yesterday afternoon and it is still blowing from that direction. The thermometer has hovered about the freezing point since yesterday morning. Until this morning no men were put to work on the streets, and the walking was practically as bad as yesterday, but much snow as possible removed with haste and as a result a great number of laborers are working on the streets today.

GOT DRUNK TWICE AND NEARLY PERISHED

There was but one prisoner in the police court this morning, Daniel Crowley, who was charged with drunkenness. Crowley paid a four dollar fine yesterday morning and left the police station about eleven o'clock. Three hours later Deputy Chief Jenkins found the man lying drunk in a Union street alley and he would have probably died in the storm if he had not been found. This morning he was remanded to jail.
