Our brethren of the Presbyterian and Methodist communions have officially organized "twentieth century" funds of \$1,000,000 each to be applied to local and general objects in connection with their

work.

Already a Presbyterian minister has subscribed \$5,000, and a Methodist family have given \$50,000, while hosts of others are preparing to follow, according to their means, these splendid examples of Christian liberality and denominational anthusiasm. ston.

In numbers and wealth the Anglicans are below the Presbyterians or the Methodists and cannot be expected to

Methodists and cannot be expected to aim at any million dollar fund; but the practical question is, Will the Church of England in Canada do anything at all? So far, I have heard nothing of any general Anglican twentieth century fund.

There is one serious difficuly in the matter of our organization in this country. Nearly all of funds are under under the control of diocesan synode. Many years hence our present transition state may have made such progress as to permit of general funds being controlled by the general synod for the whole dominion, but meantime we have not the centralized financial organization of either the general assembly or the general conference.

take the matter in hand to provide for our gallant boys who will on the 31st inst. leave our peaceful shores to sail across seas to represent to the world the greatest thing civilization has yet evolved—the unity of the British empire. Should such an organization be started here I am of the opinion that many will gladly avail themselves of the opportunity to identify themselves of with auch a noble movement, and when they meet to arrange details I shall be glad to contribute my quots.
