INQUEST INTO JOHN DEAN'S DEATH

Jury Find Heart Disease Was the Cause—Good Prices Obtained for "No Mark" Logs—Bishop Kingdon Improving—St. John Men in Trouble.

(Special to The Telegraph.)

Frederickton, N. B., Aug. 2.—A party of lumbermen, including F. C. Beatty, Henry Hilyard, N. H. Murchie, E. L. Jewett, Charles Miller and F. D. Trites, of St. John, who came to the city today to attend the inquest, boarded the tug Randolph this afternoon and inspected the boom company's operations at Douglas and Lincoln. Manager Bliss, and J. A. Winslow, one of the directors, accompanied them.

The lumbermen expressed themselves as well pleased with the work being done at the boom. One of them, in conversation with a Telegraph representative, said that the lumbermen had no cause to complain this season of the operations of the boom company.

Coroner McNally this evening held an inquest over the body of John Dean, the colored man who expired suddenly in the Barker House stables. After hearing the testimony of Dr. W. H. Irvine and several other witnesses, the jury returned a verdict that death was due to heart disease, and they exonerated the proprietor and employees of the stables from all blame.

The annual sale of no-mark logs sold by the Frederickton Boom Co., was held at the office of A. F. Randolph & Sons, this morning and was well attended.

Randolph and Baker purchased the spruce at \$13.85 per thousand; Henry Hilyard, cedar, at \$6.35; Murray & Gregory, the pine at \$7, and also the hemlock at \$4.75.

Up to date about seventy million feet of lumber has been rafted by the company, which means that the season's work is two-thirds completed.

The no-mark and mixed-mark logs sold this morning totalled as follows: Spruce, 15,807 pieces, containing 340,968 feet of merchantable, 455,194 of battens and 107,189 of condemned.

Pine, 280 pieces, containing 15,540 feet; Hemlock, 573 pieces, containing 28,535 feet; Cedar, 4,896 pieces, containing 167,750 feet.

A charge of five cents per thousand is added for freightage, and the purchasers will receive at the same price the balance of unmarked lumber to be rafted this season.

Last year's prices were as follows: Spruce, \$14.30; cedar, \$6.90; pine, \$12.15; Hemlock, \$4.80.

Good Time Made in the Events—The Weather Delightful and All a Great Success—Public Half Holiday Well Observed by the Storekeepers.

(Special to The Telegraph.)

Charlottetown, P. E. I., Aug. 2.—The dawn of a fine day today contained promise of good weather for the sports, which were the chief feature of the firemen's tournament. Reassured as to the weather, the firemen at an early hour went blithely to work to make the athletic tournament a success, and the result shows that their preparations had been well made.

A public half holiday had been declared by the local and the city governments, and there was a practically general closing after 1 o'clock. Immense crowds of people found their way to the exhibition grounds, where soon after 1 o'clock the first event was called.

Charlottetown won in seven events, Glace Bay won in three, Moncton in one, and Sydney in one. St. John had no first places.

The half-mile hose reel race was first called. The world's record for this race is 2:37.25, made on the same track by the Charlottetown team in 1892. The half-mile run for firemen was won by Harry Harley, of Charlottetown; P. M. Ball, of Sydney, second; P. A. Duffy, of Charlottetown, third; time, 2:28.45.

The hose-coupling contest was again won by Charlottetown second team in 14.45 seconds; Dartmouth's first team, second, 15.13 seconds.

The quarter-mile race, open to all firemen, was won by Ball, of Sydney; Duffy, of Charlottetown, second; McLeod, of Charlottetown, third; time, 54.15. The maritime record is 51.15.

The relay race furnished plenty of interest and the runners were watched eagerly by the crowd. The Glace Bay runners won this, with Charlottetown second. It was a mile race, four runners from each team; time, 3:32.25.

ANTI-WICE SOCIETY AFTER ART LEAGUE

Studios of Leading School of Art in New York Searched, and Woman Bookkeeper Arrested.

New York, Aug. 2.—Upon a warrant sworn out by Anthony Constock, secretary of the Society for the Suppression of Vice, the studios of the Art Students' League, one of the most distinguished art schools in America, were today searched and the bookkeeper, Miss Anna Robinson, was placed under arrest. It was charged by agents of the society that the reproductions of figures in the nude, contained in the fall catalogue, which the league was about to issue, were of an immoral character.

A patrol wagon load of the catalogue was seized and taken to the police court as evidence. Magistrate Mayo adjourned for a further hearing on Aug. 7, the charges against Miss Robinson.

Miss Robinson was arraigned as "Jane Doe" on the charge of violation of an act for the suppression of traffic in obscene literature, illustrations, pictures, etc.

HALIFAX UNION TROUBLE

(Special to The Telegraph.)

Halifax, N. S., Aug. 2.—The Dominion Coal Company's chartered steamer Mystic, which recently went ashore, was got off and brought to Halifax for repairs. A New York firm tendered at a lower figure for the job than did the Halifax Graving Dock Co., but certain temporary repairs had to be effected to enable the steamer to be taken to New York.

Halifax union workmen declined to do anything unless they got all the New York people sent home. Four men were sent to work on the ship, but the union threatened to do what was necessary, which was about three hours work. The union threatened an action for violation of the alien labor law and had the attorney-general give his consent to start legal proceedings. Nothing was done, however, partly because of the expense and the Mystic will sail for New York tomorrow.

FIRE OF REVOLT TO SPREAD TO CORNERS OF THE EMPIRE

Russian Mutineers Undaunted by Failure at Sveaborg and Cronstadt

Uprising at Cronstadt Made Czar Prepare to Flee to Tsarskoe Selo—Brutal Stabbing of Woman Who Sought to Save Her Brother—Military Disorders at Reval on Gulf of Finland—Cruiser Flying the Red Flag.

(Special to The Telegraph.)

St. Petersburg, Aug. 3.—1.5 a. m.—Although the mutinies at Sveaborg have been quelled and the Czar's fleet has been practically put down, the outlook is still bleak. The revolutionists, whose hands were suddenly forced by the premature rising at Sveaborg, are apparently undaunted at these initial reverses and intend to persist in their programme of calling a general strike on Saturday or Monday.

One of the leaders of the revolutionists with whom the Associated Press spoke last night, boasted that the word had gone forth and that fire of revolt would spread to the corners of the empire. His closing words to the correspondent were: "Now watch Reval, Riga and Liebau."

Mutiny on Cruiser.

The mutiny on board the armored cruiser Panayaz Azova, off the Estonian coast, is fraught with enormous possibilities. The crew of this vessel rose and killed the commander and four officers. Ambassador Meyer has received a dispatch from the United States consul at Reval saying that the Panayaz Azova entered that port this afternoon with the red flag at her masthead.

Should this cruiser under the flag of the mutineers, sail to the northward and appear before the main squadron in the Gulf of Finland, the loyalty of the crews of the vessels would perhaps be put to a stronger test than they could stand.

Although the admiralty claims that the squadron off Sveaborg did not move in its position, the loyalty of the crews of the vessels would perhaps be put to a stronger test than they could stand.

Earlier accounts of the Cronstadt trouble have been largely incorrect. The mutineers on the side of the loyal men were six officers and two sailors killed and about twenty of both arms wounded. The losses on the side of the mutineers could not be obtained, but they were not heavy. Three workmen were killed and six were wounded. In addition, Mme. Jacoby, a sister of Col. Alexandroff, who threw herself between her brother and some sailors when the latter swarmed into their house at the beginning of the outbreak, was brutally stabbed to death.

The latest forestry was displayed by both sides. One of the workmen killed in the patrol: "Don't fire on the people," but the officer in command turned coldly away and gave the order to shoot the man dead.

The Cronstadt Mutiny.

When the firing began at Cronstadt: Wednesday night, there ensued a wild panic in the imperial palace at Peterhof, as the mutineers opened the guns of the fortresses. All preparations had been made in advance to flee to Tsarskoe Selo, but the report about yesterday afternoon that the emperor and his family actually had fled in the middle of the night, was denied later at the chancellery of the imperial household. It was explained, however, that on account of "dampness" at Peterhof, arrangements had been made for the return of the imperial family to Tsarskoe Selo.

Marital law was proclaimed at Cronstadt during the day, and all day long reinforcements have been landing there from the mainland. No one is permitted on the island without the guns of the fortresses.

The correspondent gave a tour of the city and penetrated to the bridge connecting the island with the mainland.

Mischivious Halifax Boys Cause Trouble.

Halifax, N. S., Aug. 2.—(Special)—Boys playing in the yards of the Intercolonial railway here released the brakes on some D. A. R. freight cars. The cars ran away and collided on the deep water tracks and did a lot of damage, piling up the line with wreckage.

Judge Sedgwick's Condition.

Halifax, N. S., Aug. 2.—(Special)—A telephone message received at 11 o'clock from Chester says Mr. Justice Sedgwick is still living but it is hardly expected that he can survive the night. On the other hand there is a possibility that he may live for a day or two more.

His physicians express some surprise at the vitality he displays. The thought he would have died at least twenty-four hours ago.

DEATH FOR TWO IN ELECTION FIGHT

Politics Taken Very Seriously in Tennessee and Gun Duel is Fought

Memphis, Tenn., Aug. 2.—J. G. Wellington, a saloonkeeper, was killed; W. C. Cooke, a judge of election, is fatally wounded, and a third man less seriously injured in a fight at a polling place a few minutes after the closing of the polls for the election of county officers today.

E. E. Conn, the third man wounded, was another judge of election. He was not seriously hurt.

The trouble arose over the county election, which was held today. Wellington insisted on being present at the count of the ballot, and in an argument Wellington is said to have drawn a revolver and begun to shoot. According to the story told to the police, Conn secured a shot gun and began firing. The first shot fairly riddled Wellington with bullets.

Wellington kept on firing until he dropped, and when the smoke cleared away Cooke was found on the floor apparently wounded, a bullet from Wellington's revolver having pierced his side.

Wellington was taken to a hospital for treatment. Serious results were expected. The body had not been recovered up to a late hour this afternoon.
