A.—Yes.
Q.—When?
Mr. Teed objected on the grounds hat if the payment had been made after the classification there could be no xtortion. Mr. Carvell argued that the rrangement was made before the classification was fixed, and the date of payment was immaterial.
Mr. Stevens said that the final classification will not be completed, under the ct, until 1917 or 1918. The deputy minister had testified that there was no rder-in-council showing what governed ne classification. When the classification was made it would be by order-council. The present arrangement in asses was merely temporary.
The chairman ruled in favor of Mr. eed.

Afternoon Session.

The court resumed for the afternoon session at 2.45 o'clock, with W. B. Showball again on the stand.

The chairman made an announcement regarding the admissability of evidence of Mr. Snowball's payment of \$15 a mile at the instance of Mr. Berry to which objection was taken on account of its being made after the classification of the lumber lands had been completed. He disapproved.

Judge Wells also spoke saying that he thought it might be well to have the evidence although it might not be taken into consideration when they were reaching a decision.

W. S. Fisher concurred with Judge Wells and the question was allowed.
