How Fast Are Your Fingers?

Do you know that the fingers of your right hand move more quickly than those of your left? Not only are they quicker; they are also much more ac-

Experiments made recently show that the ring finger of the left hand

can work much faster when it is operating in conjunction with the fore-inger of the right hand.

The more we increase the use of our fingers the more proficient and accur-ate they become. If you are atypist or a planist you will find that practice tends to increase the rate of working tends to increase the rate of working of the fingers of the left hand, which are naturally slower than those of the right. Two fingers working together are considerably faster than one finger working alone.

Man without patience is a lamp Cleanliness is the adornment of old

The invisible ear drum invented by A. O. Leonard, which is a miniature-megaphone, fitting inside the ear entirely out of sight, is restoring the hearing of hundreds of people in New York city. Mr. Leonard invented this drum to relieve himself of deafness and head noises, and it does this so successfully that no one could tell he is a deaf man. It is effective when deafness is caused by catarrh or by perforated or wholly destroyed natural drums. A request for information to A. O. Leonard, Smite 437, 70 Fifth to A. O. Leonard, Suite 437, avenue, New York city, will be given a prompt reply.

The Pink of Courtesy. He was a cab driver of the old sort, and he was called as a witness in an action for damages incurred in a street collision. Ignoring the jury, he persisted in relating his story to the judge. Ultimately the judge stopped him and observed: "Address yourself to the jury."
