HOETETTER'S STOMACH BITTERS .- . A Hundred Curatives in One. - Not the least striking merit of HCS-TETTER'S CELEBRATED BITTERS is the wide scope of their operation as a preventive and remedial preparation. As a protective medicine they ward off all the diseases - and their name is Legion - that originate in unwholesome air, impure water, exhausting heat, or other local and climate causes. This alone would be sufficient to secure for any corrective and alternative medicine a world-wide and undsing celebrity. But HORTETTER'S GREAT SPECIFIC has a hondred other claims to the confidence and hidh consideration of the public. In dyspepsia, liver complaint, chilis and fever, oilious remittent fevers, choiera morbus, cramps, colic, constipation, general debility, premature decay, female irregularities, sexual disability, constitutional weakness, sea sickness, diatrheea, dysetery, flatulency, vertigo, fainting fis, hysterics, and all complaints proceeding from imperfect digestion, and a disordered condition of the liver and bowels, HOSTET-TER'S STOMACH BITTERS are the most powerful, speedy, harmless and agreeable of all remedies advertised by the press, or administered in family prac-

45,000 FEET OF CEDAR. JORDAN & BENARD,

July 21, 1863.

THE peculiar tains or infection which we call SCROFULA hirks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes in-YERS competent to sustain

35 St. Denis Street.

leaves the system to decay. The scrofulous entamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending from purents to children unto the third and tourth generation;" indeed, it seems to be the tod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the langs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, cruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antidotes that inedical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does comline virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelar, Rose or St. Anthony's Fire, Salt Rhsum, Scald Head, Coughs from tubercalous deposits in the langs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aven's American Almanac, which is furnished to the druggists for gratatious distribution, wherein may be learned the directions for its use, and some of the remerkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a semody which is adequate to its cure. This we new offer to the public under the name of Aren's Sansaparita, although it is composed of ingredients, some of which exceed the ast of Surseparilla in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the fool corruptions that rot and fester in the bleed; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which both within the system or burze out on any

We know the public have been deceived by many compounds of Sirsapurilla, that promised such and did nothing; but they will neither be decived nor disappointed in this. Its virtues have been proven by abundant trial, and there-remains no question of its surpassing excellence for the cure of the afflicting diseases it is inrended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is for more effectual than any other which has ever been available to them.

Conghs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it over has been, and that it may be relied on to do all it has ever done.
