

FRONTENAC ADDINGTON.

COLIN A. CAMPBELL

Liberal Candidate in the Federal By-Election
for the Riding of Frontenac-Addington on
Monday, September 24.

Colin A. Campbell Stands For New and Better Deal

You are tired of the Bennett Government's lack of constructive policy and action. You are tired of its failure to bring you relief from the trials, difficulties and hardships of the last four years. Colin A. Campbell stands for the Liberal policies which will bring you better times, will widen Canada's export markets for your farm products, will re-create the home market for farm products by providing work for the unemployed. Your only hope for future prosperity lies in electing Colin Campbell, and thus serving notice on the Bennett government that it no longer has the confidence of the people of Canada.

In the by-election of Monday, September 24, you are called upon to make a decision which will have a vital effect on your own future welfare, and that of the whole Dominion of Canada. For the last four years you have suffered from the complete failure of the Bennett government to live up to the promises made to you in 1930. You have seen your markets for farm products dwindle away and disappear. You have seen the prices for your farm products drop far below profitable levels. You have seen your home market ruined by unemployment and lack of purchasing power of hundreds of thousands of your fellow-Canadians. These have been the inevitable results of the misrule of the Bennett government, and it rests with you to decide whether you desire a return to better conditions.

You, the electors of Frontenac-Addington, know from your own experiences what the Bennett government has meant to you in misery, suffering and financial burdens. You know just how bad conditions have been. In the election of Monday next, you have an opportunity to take a decisive step towards righting these conditions.

The Liberal party, of which I am candidate, definitely pledges itself to policies which will serve to create wider markets for Canada's farm products, to re-establish the home market by reviving industry and trade and providing employment for Canada's workers, and further, to reduce the cost of production to the farmers of Canada by lowering the cost of their implements of production. With these policies I am heartily in accord, and it will be my aim, if I am elected as your representative in the House of Commons, to further them to the best of my ability.

In the election of Monday, September 24, the eyes of Canada will be on you the electors of Frontenac-Addington. By electing me, you will serve notice on the Bennett government that it no longer has the confidence of the people, and that a change to a new and better era is wanted.

In asking for your support, my only thought is that I can be of service to you, my fellow citizens of Frontenac-Addington. As a son of the soil, raised on an Ontario farm, I believe I understand your problems and difficulties and can advocate constructive policies for their solution. Your interests are my interests; your welfare is my welfare. I pledge myself to serve you whole-heartedly, striving always to bring nearer to realization those Liberal policies which I believe can alone better conditions for you.

If you are agreed that the time has come for a change, that you want improved conditions in both agriculture and industry, I appeal to you for your support and your votes when you go to the polls on Monday next.

Yours very sincerely,

Colin A. Campbell
