A laughing treat is in store for
Chatham audiences on Monday, Nov.
25th, when Mr. H. Reeves-Smith
brings his celebrated London and
New York success to the Grand Opera
House.

It is sometimes a wonderful con-
venience to own a relative who is
so like one that even one's parents
cannot tell which is which. At least
Mr. Alfred Partridge found it so
when flying from a writer's office and
arriving in a country inn, where his
plight as a country inn, where his
cousin Arthur—his double—is staying
and courting the inn-keeper's daugh-
ter. He eats Arthur's breakfast,
keeps Arthur's girl, gets ducked by
Arthur's rustic rival and is carried
off to town by Arthur's parents, who
fondly believe they are saving their
son from a designing country girl.

Arrived in town Alfred has to in-
view the American heiress, whom
Arthur is supposed to be engaged to.
By the terms of her father's will she
must marry a Wallerton Partridge
or lose her fortune. The situation is
somewhat difficult for Alfred, who
is expected to make love to a girl
whose name he does not even know,
much less the fact that the girl be-
lieves him to be her fiancé. Grad-
ually, however, the situation dawn
upon him, and a very desirable situ-
ation, that of the heiress's future hus-
band, would seem to him to be. Just
however, as he is in the act of sign-
ing his cousin's name to the marriage
settlement, a letter arrives from the
real Arthur announcing his final de-
termination to wed none but the in-
nkeeper's daughter. The impostor
takes flight, with the heiress, the
writer-server, and Arthur's parents
close on his heels, at the country inn,
where his unsuspected presence keeps
everybody in a whirl of bewilder-
ment to the very fall of the curtain.

"Mistress Nell" was the attraction
at the Grand Opera House last night.
The play is founded on historical facts
and deals with the friendship of King
Charles for Nell Gwynn. Miss Agnes
Arden as Nell Gwynn was a whole
play in herself. She showed at her
best when masquerading as an Irish
Boy at the ball of the Duchess of
Portsmouth. Miss Nell was certainly
pleasing and had she the support
she deserves, the play would rank
amongst the best. The attendance
was not all that could be desired.
The next attraction at the Grand
will be "A Brace of Partridges," Mon-
day evening, Nov. 25th.

AN UNCANNY IMPULSE.

The Strange Desire Many Persons
Feel to Court Death.

Much has been written concerning the
almost uncontrollable impulse to jump off
which many persons experience when
standing on a high place. Akin to this
impulse is that which seems absolutely
to force people to touch a dangerous ob-
ject. In many cigar stores there are live
automatic cutters provided for taking the
tip off of the cigar by simply pressing the
end into a small round opening about the
size of the end of one's finger. It is sur-
prising how many men will poke their
fingers deliberately into these cutters, al-
though they are perfectly aware that they
will have a piece of the flesh nipped off.

Any cigar man who has one of these cut-
ters on his case will tell you stories of
such people that will surprise you. The
tendency to be a strong tendency in the
human race to "monkey with the buzz-
saw."

A phase of this subconscious idiosync-
rasy is that which is called for want of
a better name—has been developed by the
use of electricity as a mechanical force.
Many people have a desire which they
hardly can control to touch electric ma-
chinery or wiring, and when they know
that the wires are charged with a deadly
current and that to touch the machine
means instant death.

An electrical engineer in speaking of
this strange impulse says: "I have known
instances where electricians actually had
to turn and run from a machine to pre-
vent giving way to this peculiar influ-
ence. Not long ago a man who was em-
ployed to sit and watch the switchboard
in one of the London dynamo shops fell
a victim to the influence. As he felt the
desire growing stronger he moved his
chair back from the board. Instead of
getting used to the work, he became
more afraid of it. Each day the desire
to walk up and touch one of those switch-
boards grew stronger. At the end of two
weeks the young man resigned his place.
He could not stand the strain. It re-
quired all his will power to restrain him
while on duty, and at night his nervous
system was so upset that he could not
sleep. He realized that to touch any one
of the switches before him meant instant
death, and his only safety lay in getting
away from the board altogether.

"I have no doubt that many deaths
from electric shock are brought about in
this way. In an idle moment a person
will catch sight of a switch, a wire or
some other heavily charged bit of ap-
paratus, and a strange desire to touch it
will come over him. In a moment of
weakness he gives way to it and the re-
sult is instant death. We frequently read
of accidental deaths from electric shock
when there is no apparent reason why
the victim should have touched a live
wire. I believe that such cases are at-
tributable directly to this influence."

C. C. RICHARDS & CO.

Dear Sir—A few days ago I was
taken with a severe pain and contrac-
tion of the cords of my leg, and had
to be taken home in a rig. I could
not sleep for the pain, and was un-
able to put my foot to the floor. A
friend told me of your MINARD'S
LINIMENT, and one hour from the
first application I was able to walk,
and the pain entirely disappeared.

You can use my name as freely as
you like, as I consider it the best
remedy I have ever used.

The annual meeting of the William
St. Baptist church was held Wednes-
day night when a large gathering of
the members assembled to consider the
reports of the last year's work. The
membership roll showed an increase of
86, of which number 51 had been bap-
tized. The report also showed that
during the past three years \$2,500
above the regular expenses of the
church had been raised and that this
had all come as ordinary offerings
from the people. On the church mort-
gage \$1,000 had been paid off, and all
floating debt. A balance still remains
in the treasury of \$256. The officers
of the church remain the same with
the exception that David Moore is
appointed church clerk in the place
of W. G. Merritt. A strong commit-
tee composed of the church trustees,
was appointed to look into church
improvements. The congregation in-
tend to spend \$1,000 in this work.

Birds' Songs.

A French writer, Henri Couper, says
that, notwithstanding the fact of their
simplicity, the songs of birds cannot be
imitated with musical instruments be-
cause of the impossibility of reproducing
their peculiar timbre. The notes of
birds, while corresponding with our
musical scale, also include vibrations
occupying the intervals between our
notes. The duration of birds' songs is
usually very short, two or three sec-
onds for thrushes and chaffinches, four
or five seconds for blackbirds, but from
two to five minutes for the lark.

A Salmon's Leap.

One of the directors of the Norwegian
fisheries has been endeavoring to dis-
cover the height a salmon will leap
when clearing a waterfall which ob-
structs its passage up stream. Measurements
were placed below the fall to insure
accurate measurements. It is stated
that a fish can leap to the height of
twenty feet. When a fish failed to
clear the fall at one bound, it remained
in the falling water and then, with a
rapid twist of the body, gave a spring
and was successful.

About the Limit.

"Bilkins, what is the most mortify-
ing thing you can conceive of?"

"Bilkins—I guess it's when a woman's
sons having grown over the head of
their father, who is of small stature,
the thrifty mother has the outgrown
clothes of her sons revamped for the
old gentleman's use."
