INTERNATIONAL STOCK FOOD

International Stock Food is a purely medicinal vegetable preparation composed of roots, herbs, seeds, barks, etc., and is fed to stock in small quantities in addition to the regular grain rations. We positively guarantee that it will keep all stock in good condition and insure rapid growth. It will enable you to fatten your stock in from 20 to 30 days less time than you could write it. International Stock F. will save you money over the ordinary way of feeding. A trial will convince you.

PUBLISHER'S DESK

Our Partners

We have always taken the ground that the readers of THE FARMING WORLD are partners of the paper, which is published in the interests of the community at large. It costs a vast sum of money to publish the paper. We take all the risks and incidentally pocket the profit and loss.

On page 497 in this issue we announce a special offer to new subscribers. We will send THE FARMING WORLD from the present date to the end of the year for twenty-five cents. It would be a great advantage to the farming community if every farmer in the Dominion of Canada would become a subscriber. May we now ask each present subscriber to do his share in making this special offer known. Tell your neighbors about it.

Washing Made Easy

It is not often that THE FARMING WORLD goes the length of recommending articles advertised in its columns. One of our staff having purchased a "1904 Junior" Ball-Bearing Family Washer, is told by his women folks that it more than bears out all the claims made for it in the advertisement. They would not take twice the price and part with it.

Every farmer spends a lot of money in up-to-date labor-saving machinery. Here's a chance for the farmer's wife. Write The Bach Specialty Co., 355 Yonge St., Toronto, for particulars.

"I have just read a few copies of THE FARMING WORLD, and am more than delighted with the paper. I send my subscription in for two years, and would like to begin with the Poultry Number, February 1st."—WM. M. SHELDRAKE, Lincoln Co., Ont.
