

tory at Hamilton, Ont., where they will shortly be manufacturing. Fearless woven wire fencing. It is expected that this new and up-to-date fence will meet with as great favor in Canada as it has met with in the United States. The management of the Canadian company is in the hands of men who know the fence business thoroughly and are familiar with the requirements of the Canadian farmers in this line. The most improved and up-to-date machinery for converting wire into woven fencing, is being installed in their new factory. Those wishing to know more of this new fence and in fact to secure any information regarding wire fencing in general would do well to write to the Banwell Hoxie Wire Fence Co., Ltd., Hamilton, Ont.

Raise What's Wanted

Few really intelligent and progressive farmers are heard complaining. The wise man is he who keeps himself ever on the alert to produce that commodity for which there is a good, strong, quick market.

There are several ways in which the cash returns from the farm may be largely increased without the sacrifice of much time, money or work. For instance, the raising of poultry has come to be a great profit-making business on some farms.

Now, a few years ago this end of the farming business was scarcely worth bothering with. The farmer's wife set a few hens, raised a few chicks and sold a few eggs, but the whole thing didn't amount to much and never was counted on to help pay the interest or swell the bank account.

Now, however, conditions have changed. There is a strong, steady and ever increasing demand for chicks as broilers. City hotels, restaurants, clubs, cafes, dining cars and private kitchens are consuming more and more every day, to say nothing of the tons and tons required to fill the export demand. Dealers can never get enough to supply the wants of their customers, and thousands and thousands more could be sold at good prices if they were offered.

A few farmers have been wise enough to see what was going on and to prepare to profit by these conditions. Broilers are wanted and good cash prices are being paid for every chick large enough to be made ready for the table. Then why not produce them?

Several difficulties arise. Hens as hatchers are failures. They set when they take the notion and seldom when you want them to. They are careless mothers, almost always leading their chicks into danger and losing many. To make any progress or profit in the raising of chicks you must have a good incubator and brooder, and this initial expenditure may prevent those who are not prepared to instal such a machine.

With a good incubator and brooder any farmer's wife can raise chicks so as to make a handsome annual cash revenue. You should get one at once and go into the raising of chicks. All you need is a small yard, eggs and the machine.

By the way, there's a firm in Chatham, Ont., who are advertising an incubator and brooder and who offer to send it prepaid and wait for the money till after 1906 harvest. This offer is worth inquiring about. If you will write a post card with your name and address to The Manson Campbell Co., Dept. 4, Chatham, they will doubtless send full particulars of their offer.

Get into the poultry raising business as soon as you can if you want to make money—and keep looking out for other good things all the time.

YOUR FARM NEEDS IT

A Disc Harrow is just as essential to your farm equipment as a team of horses. The "Windsor" is an implement that will fill the bill every time and always give entire satisfaction.

Built in 8 different sizes.

This Harrow is built on the **outhrow principle** with discs 16, 18 and 20 inches in diameter. It is suitable for all kinds of land, but does exceptionally good work in **heavy or new land**. It will cut through **stubble, weeds, roots or vines** and turns them under.

"The Windsor" is equipped with accurately fitting scrapers, which keep the discs clean at all times.

Ball Bearings, fitted in self-aligning boxes, make matters easy for the horses.

Patented Pole Attachment allows of an instant change for two or three horses.

Send for Catalogue "B."
