

Concrete walks need no repairs

THEY are not only best at first but are cheaper in the end than any other kind of walk. They are clean, permanent and safe. There is nothing to become loose nor are they slippery. They improve the general appearance of a house and are a source of great satisfaction to every housewife, because they keep children out of the mud, prevent colds from wet feet and prevent dirt from being "tracked in" on floors and carpets. Equally important is the fact that they never wear out and never need repairs.

This free book "What the Farmer can do with Concrete" tells all about concrete walks and how to build them, and a score of other things needed on every farm. Write for it to-day.
