BINDER TWINE

The man that don't realize the importance of sustaining this co-operative twine movement with his patronage and influence is little better than a

FARMERS' CO-OPERATIVE BINDER TWINE COMPANY, Limited, Brantford, with its thousands of stockholders, is again ahead in the great Binder Twine race for the harvest of 1900. Competition defied. Red Star (magnificent), 12c.; Blue Star, 11c.; Standard, 10c. Mill running full tilt. Raw material bought right. See our farmer agents at once. Farmers, you would have paid 16c. to 20c. a pound this coming season for twine had it not been for the existence of this Co-operative Company. Opposition—"Buy us you can't. Lease us you cannot. Crush us if you can. We hold you at defiance so long as the farmers are loyal to their trust." Order early, this is your last warning.

JOSEPH STRATFORD,

GENERAL MANAGER.

A GOOD BARN.

With walls 11 feet high, and arched root-house under driveway. Walls

Built With **THOROLD CEMENT**

Barn of John McFarlan, Leesboro, Ont. Size, 50 x 80 feet; walls 11 feet high. Walls and Floors built with Battle's Thorold Cement.

READ WHAT MR. MCFARLAN SAYS:

ESTATE OF JOHN BATTLE, CEMENT MANUFACTURERS, THOROLD, ONT.; LEESBORO, ONT., DEC. 22, 1899.
Dear Sirs,—It is with pleasure I testify to the good qualities of your Thorold Cement, having used it in building the concrete walls of my barn, size 50 x 80, walls 11 feet high, with root-house under driveway 11 x 42 feet, arched roof. The work was done under the supervision of Mr. Walter Lambert, and the floors under Mr. N. B. Hagar. I consider the work is a credit both to them and to you. I have no hesitation in recommending your Cement to those requiring its use.
JOHN MCFARLAN.

Estate of John Battle, Thorold, Ontario.

THE NATIONAL FARM Cream Separator

Manufactured by the Raymond Mfg. Co. of Guelph, Limited, manufacturers of the celebrated Raymond Sewing Machines.

"NATIONAL" NO. 1 HAND POWER. Capacity, 330 to 350 lbs. per hour.

THE National is an up-to-date machine, leading all others in separating cream by centrifugal force. It is the farmer's choice, because it runs easy, skims fast and clean, and makes a perfect cream, containing any per cent. of butter-fat desired. It is also easier to clean than any other. The National is built of the very best material suitable for the construction of a high-speed machine, and with proper care should last a lifetime. The bearings are interchangeable and easily adjusted. Every machine is guaranteed to do good work, and a trial of the "National" is solicited before purchasing any other. The already large sale of the "National," and the growing demand for it, shows how much the Canadian farmer appreciates a Canadian-made machine that does its work so easily and well, and at the same time returns such a large profit on the small investment. Ask for the "National"; try it and buy it.
