Hardly any rubbing with Sunlight Soap. The Sunlight Maids say its child's play.

SUNLIGHT SOAP

Will wash anything, but to secure best results with least labor should be used in the Sunlight way. First dip the articles to be washed in a tub of lukewarm water and draw it out of the water on a wash board and rub the soap over it lightly. Then roll them up tightly and lay under the water. Leave them there for thirty minutes and let Sunlight Soap do its work. Commence rubbing the clothes lightly on the wash board and the dirt will drop out. Turn the garments inside out to get at the seams but don't use any more soap. No need to scald or boil a single piece and don't wash through two suds. Rinse in lukewarm water taking care to wash out all the dirty suds, then ring out and hang out to dry. That's the Sunlight way. It makes the clothes snowy white.

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.
