changes they necessitated. WHERE THE DIVISION AROSE.

We give place this week to a resolu-tion of Branch 177, Newcastle, N. B., which serves to show that the members have fully grasped the situation and have given their decision in a manner denoting the possession of intelligence and common sense. In a few words we may say that the situation is pre-The Supreme Council and cisely this : the Canada Grand Council, after the most mature deliberation, came to an almost unanimous decision (only three members in each body voting nay) to adopt a certain line of procedure. Thereupon a few disaffected and irreconcilable agitators in Montreal set to work, after the manner of a bull in a china shop, to smash everything because they could not rule the Current history in Ireland majority. gives us a very good illustration of what mischief an unreasoning few may be the authors. Mr. Redmond and his party, representing only a fraction of the population of the country, have become possessed of the idea that all Ireland is wrong and that they are right. Similarly half a dozen men in Montreal seem to hold to the notion that they are possessed of more wisdom than the other thirty thousand members of the C. M. B. A. Blessed is the society that possesses no chronic dis-turbers, and we earnestly hope the few misguided and unreasoning brothers in Montreal will ere long accept with good grace the decision of the majority, or bid the association adieu. Brother who cannot endure an adverse vote at the ballot box do not possess the requirements which go to make up a good C. M. B. A. man.

The Situation.

The following very correct summar, of the present standing of C. M. B. A. in Canada, and of the circumstances that led to the financial separation from the United States branch, appeared in the Montreal Gazette a few days ago : The publication of the letters of branches and five hundred members,

pointing out that this is what the de-Archbishops Walsh and Fabre on the divisions in the Catholic Mutual Benefit Association is causing some talk among members of the order. The story of the trouble goes back a good jurisdiction in the same territory. If while For a number of years there een among the Canadiam has been among the branches, and particularly in Ontario, a desire to sever, at least financial. connection with the order in the United States. This was largely due to the fact that the death rate among members in the United States ran higher than in Canada, so that Canadian branches were paying more in dues and assessments than they stood to receive in benefits for their members, This feeling found vent in the conventions of the order in Canada, but it was not till the late change in the Ontario law came into operation that the majority was affected by it. Ontario's legis-lation was intended to secure the members of such benefit societies, as far as possible, from loss in connection with the control and investment of their funds. It restricted their powers of investment and imposed upon them other conditions which made it advisable that the supreme control of the finance should lie in Canada. THE MOVEMENT FOR SEPARATION.

Supreme Council.

While outwardly the Supreme Coun cil and all parties concerned agreed to the understanding thus arrived at there were certain disaffected elements, encouraged, it is even hinted, by mem bers of the Supreme Council, who, while acquiescing in, did not approve of the measure of independence ac-corded to the Canadian branches. These took advantage of a clause in the

After considering it, the committee made a report to the Supreme Council in session, which recognized the justice and force of the Canadian request ; declared the facts connected with the registration under the Ontario Act of the Grand Counci of Canada and the withdrawal by the Supreme Council of its own application for registration, admitting that under the conditions created by the Act and the registration of the Grand Council, it was not practicable for the Supreme Council to continue the management of the beneficiary fund in Ontario through its agents, and that by virtue of the above cited law and registration the Grand Council of Canada must in this country be considered the central governing or controlling body.

The Star interviewed the druggists of Grand Valley, and had the same answer from all—Pink Pills are the best selling and most popular remedy in their stores, and the sales are con-stantly increasing. Mr. Erskine, of Dr. Hop-kins' drug store, and Mr. Stuckey, of Mr. Reith's establishment, told the Star they were amazed at the great and growing demand for Dr. Williams' Pink Pills. If the remedy is as popular in other parts as it is in and around Grand Valley great Indeed must be the good ac-complished by this famous cure. Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but a scientific preparation. They contain in a condensed form all the ele-ments necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specifie for such diseases as locomotor atax, meuralicia, rheumatism, nervous prostration; all diseases depending upon variated humors in the blood, such as scrofula, chronic erysipelas, etc. They build up the blood and restore the glow of health to pale and sallow cheeks.
