As it respects India, recent occurrences have completely frent the veil which shrouded so long from the general eve those chambers of imagery now clearly shown to have been all along connected with the unhallowed policy of the East India Company, unhappily connived at by the Imperial Government. And what have we seen? Pazan idolatry, with its obscene symbols and ceremonies, patronized, whilst Christianity has been proscribed, the false prophet recognized and his deluded votaries respected, whilst the Redeemer of the world has robe. So anxious, indeed, has the English been virtually dishonored, and even the desire manifested among the heathen to seek His salvation, cruelly discouraged and repressed. Can it be any matter of surprise that a course of proceeding so iniquitous,unrelentingly persisted in save when external pressure compelled a deviation, while three successive generations have passed into eternity,-should have drawn down upon us that withering rebuke of Divine of Her Royal Highness will not be lost in Providence, under which the nation stands at this hour horrified and humiliated? ### Horton Circuit.

In a short communication some time ago, relative to the work of God on this Circuit, I promised that you should hear from me again on tinuous labours in the blessed work I will now attempt to fulfil said promise.

As previously stated, the revival pleasingly commenced at Horton Point, extended its hale lowing influences to Lockartville, and this interesting settlement has subsequently become the scene of one of the most general revivals I ever have been permitted to witness. Almost, if not quite, every house has become a house of prayer, and many have been enabled to rejoice in the Minie does its work with telling effect 900 God of their salvation. Most of the members yards off-a distance that prevents the firing of the extensive family, known and respected by many of your readers, whose name the setthat human ingenuity should be employed of necessity in effecting improvements in the art of shedding blood! A number of persons from the adjoining settlements have also attended the meetings with much profit. For several weeks past the services have continued without great joy. But a few hours were sufficient any abatement in interest, and on almost every

the presence of the Lord; and up to the present time the power of God to comfort and awaken, is heing experienced in our midst. Many of our friends who reside nearer the Horton Chapel have from the commencement been sharers in the gifts of God during the meetings at the Point and at Lockhar(ville, and in some cases whole households have been brought under Divine in

We have recently secured the use of the Temperance Hall for prayer meetings on Sabbath afternoons, and those meetings, conducted by our leaders and brethren, have been and continue crowded, and gracious influences rest upon the people. The revival having extended its blessed influences, we now hold meetings in our church in Lower Horton consecutively with those already mentioned. On the 21st ult., four more who had not previously received the ordinance were dedicated to God by baptism in the Horton Church, and many others in the different locations of our meetings have experienced the favor

of God and have united with His Church. I am not at present able accurately to state. but think that nearly one hundred precious souls have shared more or less in this wonderful work not discovered the least manifestation of improper excitement that could offend the most fastilious ear; there has been indeed a deep feeling inspired by a conscious sense of the Divine presence, but its manifestations have all been in accordance with the Word of God.

Many of those who have experienced the favor of God are the children of our beloved peoplethe subjects of many prayers and the hope of the Church. Some of our sged members who have borne the burden and heat of the day, have been led to cry out in holy ecstacy, " Lord now lettest thou thy servant depart in peace according to thy word, for mine eyes have seen thy salvation." For more than ten weeks we have continued our extra services, and with the exception of the few days Bro. Lathern was with us, as previously stated, we have not been favored with the help s prevalent that Nana Sahib with a large of any ministering brethren. At times it has appeared to me impossible to continue the meetngs, from physical exhaustion; and indeed were t not for the valued and well-sustained services of the brethren J. Armstrong and R. Parker, seconded by the activity and zeal of our beloved people, I should not have been able to continue meetings. I never was so fully sensible of the invaluable help attainable from members of the Church, who not merely say they wish, for a revival, but who affectionately and carnestly labor for such a consummation. How impressive is the exhortation of the Prophet, "Ye that make mention of the Lord keep not silent, and give Him no rest till He establish and make Jerusalem a praise in the earth."

I must now inform you that we held a short time ago in Lockhartville what I shall designate a " Home-made Missionary Meeting." In consequence of the absence of many of our friends from this settlement during the summer months winter. In accordance with such usage we published our Meeting to be held on the evening of Chapel, to my great disappointment, not one of bly represented in such men as Dr. Duff, all that glittering array, among suits of dianor will they be left much longer to so unnor will they be left much longer to so un-
