june 6 WOODILL'S WORM LOLENGES,

CERTAIN, SAFE, and EFFECTUAL ARE THE ONLY

Remedy for Worms THEY never fail to act when properly used and are CERTAIN to exterminate any of the different species of Worms which inhabit the dif-ferent parts of the intestinal canal, They do not contain Calomel. or any other mineral substance, but are purely VEGETABLE and therefore SAFE. They act

on the VORMS only, producing no other consti-tutional effect than that which would follow a dose of SENNA, CASTOR OIL or SALTS. In the treatment of WORMS the principal indication is the EXPULSION of the Worms from the Bowels. This may be fulfilled in some instances by active Purgatives, which expel by increasing the peristaltic action of the bowels, or by Anthelminties, which favor their expelsion theorem. the peristaltic action of the bowels, or by Antheimintics, which favor their expulsion through the ordinary contraction of the bowels by distroying them, or rendering them less able or less disposed to resist this contraction. Other preparations in use possess the latter properly only, and to a feeble extent, for to produce it, it is necessary to give large and nauseous doses, and on the following day some purgative to carry off the effects of the previous day's medicine,

The combination of these two modes constitutes

Woodill's Worm Lozenges thus not only destroying by their authelmintic, but removing immediately by their purgative proper-ties. It is upon this union that we claim the SUPERIORITY AND

ORIGINALITY OF Woodill's Worm Lozenges, as they are the only preparations combining these essential qualities. The ingredients both AN-THELMINTIC and PURGATIVE, composing them are eminently calculated to produce the best results, in accordance with the object of their com-bination, while they are both pleasant and agree able to the taste.

Be particular to ask for WOODILL'S. They

are of a pink color.
