What Life Insurance Means

The greatest danger to the home life is the premature death of the husband and father.

A life insurance policy means that the old home will be maintained, though the owner be taken.

It means that the family will not be scattered for want of money to sustain the life of the home.

It means that the boys and girls will have a chance to get an education where otherwise they might have been compelled to work.

It means that the mortgage, if one exists, will not be foreclosed. Secure a policy in

THE DANGER IN DELAY!

THE realization of the absolute uncertainty of life—even a single day—by the closest thinkers, led to the invention of Life Insurance, whose mission is to meet uncertainty with certainty. If proper provision has been made, The Continental Life Insurance Co. comes promptly to the relief of the family whom death has shocked and bereaved, every time.

For example: An expenditure of only \$49.50 per annum on the part of a policyholder aged 30 will guarantee to his wife, aged 25, an income of \$10.00 per month for at least 20 years after his death and as long thereafter as she may live—or

An expenditure of only \$63.05 per annum on the part of a policyholder aged 40 will guarantee to his wife, aged 35, an income of \$10.00 per month for 20 years after his death and as long thereafter as she may live.

From these premiums larger incomes at the same ages may be ascertained. Write for rates for an income applicable to your own home.

See your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.
