A WUMAN'S RIGHT TO GOOD HEALTH

Most Troubles Afflicting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping figures—sure signs of headaches, weak backs, aching limbs and uncertain health ak women should win the right to be well by refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy attractive women. This new, red blood is supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through and every nerve in the body. the use of these pills thousands of women have found benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer. Among the many women who tell of the good Dr. Williams' Pink Pills have done them is Mrs. L. Hicks, Round Hill, N.S., who says: "I became very much run down in health; my blood seemed weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often reas about Dr. Williams' Pink Pills and decided Dr. Williams' Pink Pills and decided to try them, and I can truly say that ing. We cooked some for dinner, and after using three boxes I found my-self gaining, and my old-time energy and vitality was restored. Out of my own experience I can strongly recom mend this medicine.'

You can get Dr. Williams' Pink Pills through any dealer in medicine or by nail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Value of Forests.

Our forests provide work which maintains half a million people. They give work, too, for our and railway men and furnish business for our merchants and bankers. All citizens can assist in taking care of cur forests and, particularly in pro-tecting them against fire.

A person enjoys a rub-down after a hard day's work; so does a horse.

Dodging the Festive Dog.

Japan has her rules of the road, not phrased as are our own, but very much to the point. The rules are in-sued in English also, for the use of British tourists.

The first rule reads: "At the rise of the hand of the policeman, stop rapidly; do not pass him by, or other-wise d'grespect him."

The second: "When a passenger of

the foot hove in sight, tootle the horn trumpet to him melodicusly at first. If he still obstacle your passage, tootle him with vigour and express by word of mouth the warning, Hi, Hi!"

The third is touching: "Beware of the wandering horse that he shall not take fright as you pass him by. not explode the exhaust box at him. Go soothingly by or stop by the roadside until he pass away:

fourth also has its pathos: "Give big space to the festive dog that makes sport in the roadway. entanglement of the dog with your wheel spokes.'

Here is an awful warning against skidding: "Go soothingly over the grease-mud; for there iurks the skiddemon. Press the brake of the foot as you roll around the corners to save

He Ate It All!

Moving a Mountain of Copper.

One of the greatest feats ever at-tempted in metal mining is now being carried out in the United States

there is a hill known as Sacramento Hill, which is composed of copper ore and contains an immense amount of valuable metal. American mining experts have set themselves the task of digging away the whole of this hill in the next sixteen years and recovering its copper.

the gold production from the mines of Forty million cubic yards of mater ial will have to be removed, and it is expected to recover from it twentymonth of June, as compared with \$1,five million tons of copper ore, which will yield a thousand million pounds 300,000 in May and \$1,084,345 in April. The production for the quarter of pure metal. Already the miners are ounted to around \$3,734,345 and is the highest quantity in the history of vards have been dug away. gold mining in Ontario. It is expected that gold production in the next huge steam shovels are employed for the purpose, and fifteen locomotives quarter will even exceed these figures.

J. W. Broach, a farmer at Boharm, haul the material away as it it dug Sask., has developed a strain of fall

The digging goes on at three different levels—sixty, forty-five, and thirty-five feet in height—and sixteen miles of railway connect these with the waste dumps where the material is stored ready for crushing and the traction of the metal.

When the work is finished there will he no hill, but in its place two pits,
