LISTOWEL STANDARD. FRIDAY, NOVEMBER 1, 1878.

Tus election of Sir John Macdonald in Victoria, B. C., took place subsequent to his formal acceptance of office, he will therefore not require to seek re-election. Mr. Todd, the well-known constitutional authority, has expressed his opinion to that effect. The elections for other members of the new Dominion Cabinet

Failing to effect a compromise with their employers at a five per cent. re-duction the members of the United Society of boilermakes and iron shipbuild-ers have resolved to quit work. The Glasgow Herald considers a bitter strug-gle between capital and labor inevit-able. The above society is exceedingly powerful-numbering over twenty thous-and members in Great Britain and Ire-land-and has over £40,000 (\$193,600) in the general fund. There is every pros-of a long and determined struggle, the effects of which, considering the present depression of trade, will be most disas-trous. Deep gloom is therefore settling down over the commercial interests of Glasgow.

Nor many days hence railway com munication with Manitoba will be accomplished, the St. Paul & Pacific Railway having about finished its extension to St. Vincent, on the its extension to St. Vincent, on the Canadian boundary, where it will con-nect with the Pembina branch of the Canadia Pacific Railway, also about com-pleted. A direct line will then be open-ed up between St. Taul and Winnipez. This will be a boon to settlers in the North-West. It will make the journey much easier and safer, and will do away with those veratious delays which have almostinvariably been encountered upon that portion of the route to the Prairie Province. About four days will how be required in accomplishing the entire journey from Listowel to Winnipez. By steamboat communication six days were frequently consumptible tween St. Taul and Winnipeg atone. A great increase in the tide of emigration may be expect-ed to follow. MITCHELL. MITCHELL. As address was presented to the Prince of Wales at Paris last week by the mem-bers of the Colonial Commission to the Exhibition, in which it was suggested that a Colonial nuuseum be permanently established in London, where "the pro-ducts of Her Majesty's more distant pos-sessions might at all times be on view." The good results emaniting from such an institution would be manifold. If would diffuse a better knowledge of the resources of the dependencies of the Empire, facilitate commercial relations, and would afford valuable information to intending emigrants. His Royal High-mess, in making reply to the address, as sured the Commissioners that he regards ed with warm interest every proposed tending to knit more closely the Colonies, and in conclusion the Prince announced that the Queen has been pleased to confer the Order of St. Michael and St. George upon the leading Colonies, and in conclusion the Prince announced that the Queen has been pleased to confer the Order of St. Michael and St. George upon the leading Colonies, and in conclusion the Prince announced that the Queen has been pleased to confer the Order of St. Michael and St. George upon the leading Colonies, and in the Canadian Commission, and Mr. Keefer It is understood that these honers havy been bestowed at the personal request of the Prince of Wales. <text><text><text><text> Aside. The Times, in a leading editorial, says: "Russia ventures to stand in the way of the execution of the Berlin Treaty, be-cause she trusts to the forbearance of others. A word spoken in earnest by England or Austria would bring her to her senses in a moment. It is preposter-ous that our hands can be tied by the Afghan difficulty. We must force our-selves upon Afghanistan to the exclusion of others who have no right there. Our course is clear. When we shall enter upon it is another question. It is cer-tain, however, that a decisive campaign will not commence before spring. Our attention will meanwhile be given to the carrying out of the Berlin Treaty.

WALLAUE. New Saw-HIL_Messrs. Hamilton & Taylor are busy at work erecting their new saw mill on the boundry about three miles cast of Listowel. They expect to be in running order in the course of a few weeks; hemlock and other, timber, of which there is considerable in the im-mediate neighborhood, will then rapidly disappear. The mill should be a profit-able investment, as there is generally a good demand for building material with-in the radius of Listowel.
