THE SUBSCRIPTION PRICE of the WEEKLY ROSSLAND MINER for all points in the United States and Canada is Two and one-half Dollars a year or One Dollar and fifty cents for six months-or all other countries Three and one-half Dol-tars a year-invariably in advance.

THE PARTY LINES.

world. With the advent of party lines in When this doctrine was promulgated provincial politics it is anticipated that by President Monroe, in his famous churches. the discussions in the legislature will message of 1823, a powerful combination In future be raised above the county ers of Europe - Russia, Austria and council level, and that the best men in Germany-had formed the Holy Alliboth parties will be induced to take part in the affairs of the province. It ance, pledged to govern the world acof the various nondescript governments ciples, and bound to come to each which have afflicted the province have other's assistance when occasion dethe present system. The party system Europe, save the king of England, achas been proven the best way of secur- cepted the invitation to join the alliing responsible government in nearly ance. In 1820 the alliance sought to every civilized country, and there can make despots of all its royal members. thardly be any valid reason brought It declared that legislation would emforward to show that it will not be a anate alone from those whom God had success in British Columbia. It has rendered responsible for power, and often been asserted that the bitterness hence all reforms obtained from sover- benefit to the mining industry. of party strife leads frequently to mis- eigns by popular revolts were null and government, but surely the exhibitions void .. Naples was the first country of bitterness which we have so frequently witnessed in the legislative At its bidding an Austrian army 1e- John Macdonald did not mean, howhalls of British Columbia have been stored the obsolete rule of a monarch ever, the protection of every little insuch as to convince the electors that a change to federal party lines of Spain applied for assistance both at Camada, but rather the protection of can not produce anything worse. The home and in South America. With the the large industries indigenous to the province is up against a condition and not a theory, and those who have its stitution was subverted and tyranny of those industries which cannot be welfare at heart will do well to reflect enthroned. An appeal had been made over the present state of affairs.

conquer its South American colonies. In declaring for party lines last February the liberals evidently considered It more advantageous for their particudar party as well as for the province, and now that the conservatives are about to take a similar step at the Revelstoke convention the question will be placed beyond the problematical. The two great parties will then get down to business and each will endeaagainst the forcible intervention of Euvor to formulate a policy which it considers for the best interests of the province. That it will be a critical per- the famous declaration with which the mine managers of the province of Brit- nition of women's rights to vote in a name of President Monroe has long ish Columbia. If it comes to the point iod in the history of both parties there can be no doubt, as each will endeawor to formulate a policy which will win the large independent vote of the province.But this very uncertain element will prove to be the leaven which will ferson and earlier American statesmen, facturers? raise the policies of both parties from that which will benefit the "inner ring" to that which will prove advantageous of it. As originally promulgated the plies, and they were enabled to purto the province as a whole. The newly of it. As originally promutated the piece, and they next market, the indus-

Tarte, the minister of doubt everyone will be made welcome. \$100 per ton, which would not pay to public works, seems to be in trouble If the present government of British work. There are others where \$2 ore with his political friends on account of Columbia wishes to do one meritorious could be mined at a profit. It is not bethe country. Look through the Slocan the plank of the new conservative plat- mines and you will hardly find a mine which can pay a profit. There are en-If it wishes to do something to be re- ormous ore bodies blocked out everywhere, but it does not pay to take out. Those poor fellows in England and other places are gebting tired handing out money for development. At one time it was the easiest thing in the world to get \$100,000 or so for the development of a promising mine. Now it is very different. The other fellow is looking for the \$100,000 from the mine. "No manager of a good mine would, I imagine, object to paying 2 per cent alone, but it is the little here and the little there, which added together makes it impossible for the mine to be a paying proposition. Last year there \$200.000.000 of foreign capital, largely from London, sent into Old Mexico for investment in mining properties. The mines are no richer there. But that money went there because inducement were offered to invest."
