MOUNT PLEASANT

The ice cream social held at the home of Mr. Porter, Mt. Pleasant road, on Thursday evening, in aid of the Methodist Church, was a decided success. A good program of vocal and instrumental music was given. The evening was ideal, the harvest moon shone brightly and everyone enjoyed themselves. The grounds were artistically decorated with Chinese lanterns, flags and flowers, and a nice sum of money was realized.

may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

THE WAY OF THE AIR

Behind The German Lines

By Lieut. F. J. Sleath. The two English airmen were ten —is that night raiding aerodrome the niles behind the German lines when C. O. was talking about yesterday. their engine gave out. It had been threatening serious trouble ever since the threatening moment in which a big shrapuel splinter had nearly knocked it off its bearings. The wonder was that they were still in the air.

They had been sent on a mission from which none of their comrades extend them to return the true of mission and headed north through the forest.

Lights are flaring on the starting

caught by the German anti-aircraft barrage, the most furious barrage that either pilot or observer had ever seen. It did not require this latter fact to emphasize the importance of what they had discovered. The knowledge of its value to headquarters had made plane stroll two hooded figures. They have the pilots approaching from the far pilot gently draws back the control lever and the plane glides gracefully into the air.

A searchlight suddenly flashes out behind them. Above the roar of the engine comes the faint rattle of a machine gum in action. The pilot dips

Open spaces were found to exist away over the aerodrome among the trees, where skilful pilotamong the trees, where skilful piloting would bring the aeroplane to rest concealed from prying eyes. But would they find such a landing place in time. If they did not, a crush among the top foliage, a sickening lurch as the machine cartwheeled over, the span of their contents of the same of t the snap of their containing belts and —. But t'e observer realized the importance of the issue at stake, and he coolly nodded his acquiescence. He was willing to run every hazard to follow out to the end

the desperate venture which he knew his companion was planning.

In a little clearing in the heart of the forest the pilot brought the machine to earth. He had only just scraped in. A lower branch catching one wing had flung the aeroplane over on the other. But a gentle slope had taken them forward, bringing the machine level on its undercarriage, and sliding them into a mass of undercompanion was planning. growth where the aeroplane dissolved into fragments. Both wings swung backwards and collapsed. The engine toppled forward and dived from the bearage. They were left seated on their cockpits, looking round them. on their cockni

The August meeting of the Women's Institute was held last Tuesday at the home of Mrs. Wm Mc-Ewen. Miss Raines gave a very interesting, instructive paper.

Week with relatives in Hamilton.

Pte. Philip Howell of Niagara-on-the-Lake, is home on six weeks' leave.

He pointed to a dark green mass in front of them, a large forest which they green mass in the charge. Again he barks a query. Again the growl from under the planes and the faint click of a switch pressed down. Round goes the propeller before the machanic's swing. With a roar the engine picks up. The propeller becomes a phosphorescent circle as the light of the flares reflects on its whirring blades. The whole machine trembles. But for the chocks beneath the wheels it would speed beneath the wheels it would speed

The chocks are knocked away. The

EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspensia.

Don't Suffer any Longer from Dyspepsia, Indigestion or Catarrh of the Stomach

WILL CURE YOU

Dyspepsia is an advanced stage of indigestion, arising from the stomach refusing to perform its normal functions. Digestion consists in the changing of foods from an insoluble form, so that they may pass through the walls of the alimentary canal and become part of the blood. The stomach keeps the food in almost constant motion for a considerable time to accomplish this purpose, and should this organ not be kept in good condition, indigestion results, to be followed in due course, if not relieved, by dyspepsia. You can keep the stomach performing its functions, and even relieve and cure dyspepsia if you get a Box at 50c from
