ROOT IS NAMED FOR IMPORTANT STATE POSITION

Indicating That Republicans Favor Some Sort of League—Borah's Opposition

Washington, Nov. 6.—The apparently well-founded report that Elihu Root is to be the Republican Secretary of State, was accepted here as indicating that Republicans who favor "some sort of a league of nations" at present have the upper hand in formation of the administration of President-elect Harding.

In addition to the proposed appointment of Root, who recently returned from helping frame a world court as provided in the league covenant, there came reports from Marian that Harding will summon a bi-partisan conference to discuss his proposed association of nations.

The intimation of these proposed moves on the part of the Republican administration has caused Senator Borah, league irreconcilable, to issue a statement declaring the overwhelming Harding majority was a clear indication of the people's decision against any league and that America must not be dragged in "by the back door."

B. C. REFERENDUM PRESENTS TANGLE IN LEGISLATION

Government Cannot Exclusively Control Sale of Intoxicating Liquors

Ottawa, Nov. 4.—According to official opinion here, the province of British Columbia is in a somewhat interesting tangle with regard to its recent liquor referendum. The result of that referendum, which was purely Provincial and not Federal in character, was to substitute for the existing Provincial Prohibition Act, government control of the sale of intoxicating liquors. It is now for the government of the province to introduce legislation implementing the people's will. The trouble is that under the present conditions there can be no monopoly of government control in the province.

The referendum recently taken does not prohibit the importation of liquor into the province by individuals for their own use, and it is not in the power of the Provincial Government to prohibit importation. It was exactly for that reason that the Federal parliament amended the Scott Act to provide for Federal plebiscites, such as were held in the three prairie provinces and Nova Scotia recently. Now Premier Oliver wants the Provincial Government to have the sole right of importing liquor into the province for medicinal, sacramental, and all other purposes. This monopoly, it is stated here, cannot be granted by the Federal authorities under existing federal legislation, and it may safely be predicted that no further legislation along that line will be forthcoming at the pending session.

The only way to restrict imports by the same means as were adopted by the four provinces above mentioned, and if such a plebiscite carried, not even the Provincial Government could import, save for medicinal and

sacramental purposes, and Government control, as approved by the recent referendum, would be but an empty phrase.

SUPPLY OF COARSE GRAIN IN UNITED STATES MUCH LARGER THAN IN 1919

Chicago, Nov. 4.—Estimates that the supply of coarse grain in the United States is 23 per cent. larger than last year, with farm animals three per cent. less numerous, did much today to lower cereal prices. Wheat closed unsettled at 2½ to 3½ cents net decline, corn off 1½ to 2½ cents and oats down ¾ to 1½. In provisions, the outcome varied from a setback of 50c to a 10c advance.

NEW YORK WORLD AGAINST EMBARGO CANADIAN WHEAT

As a Means of Increasing the Price of U. S. Wheat—Outspoken Comment

New York, Nov. 4.—A movement on foot in the United States to have an embargo placed on Canadian wheat imports as a medium of increasing the domestic price of wheat, received adverse comment in the World this morning. That newspaper says: "It must be assumed that in appealing to Washington for an embargo on imports of wheat from Canada, the Chicago Board of Trade is animated by the purely altruistic purpose of helping the growers of Kansas and round about to corner wheat and boost the farm price and profit, rather than of helping itself to an old-time corner for the benefit of its own crowd. Such an embargo can have no more effect in raising the Kansas or Chicago price of wheat than the damming up of Bering Strait could raise or lower the depth of the Arctic or Pacific ocean."

18 DRY DISTRICTS IN SCOTLAND IS LATEST REPORT

While 249 Have Decided for No Change, in 24 Favor Reduction of Licenses

London, Nov. 4.—The latest summary of the Scottish liquor poll shows that 249 districts have decided to make no change, 24 favor a reduction of licenses and 18 will go dry.

Results in Glasgow
Glasgow, Nov. 3.—Official results in Glasgow of the liquor option poll today show a comparative victory for the "wets."

Four wards voted "dry"; nine for limited licenses and 24 for no change, which means that 94 licenses will be cancelled throughout the city out of a total of 1,600.

The "dry" wards are: Whiteinch, Cathcart, Pollockshields, and Campbell.

In Dennistoun prohibition was defeated by four votes. Practically all the working class areas remain "wet," and also the central city districts.

Aberdeen voted "wet" by two to one. Other towns voting "no change" were: Hawick, Dalkeith, Auchtermuchtie, Falkland, Arbroath, Montrose, Tayport, Kerriemuir, St. Andrews, Alloa, Girvan and Stonehaven.

S. F. FARMER IS TO BE LABOR CANDIDATE FOR MAYOR OF WINNIPEG

Winnipeg, Nov. 4.—S. F. Farmer was nominated as candidate for mayor at a convention of the Dominion Labor party held in the Labor temple Wednesday night.

The nomination of A. W. Puttee was moved in opposition to that of Mr. Farmer. Upon the ballot being cast it was found that Mr. Farmer polled 191 votes as against 146 polled by Mr. Puttee, who, upon the result being announced, immediately had the convention make Mr. Farmer's nomination unanimous.

Practically a complete slate was nominated for the coming civic election, including candidates both for the aldermanic vacancies and memberships of the school board.

WANTS CONTROL OR WILL RESIGN

Temperance Official Does Not Want Divided Authority—Farmers in Liquor Traffic

Toronto, Nov. 4.—Both Chief License Inspector Mousseau, of Windsor, and Rev. J. O. L. Spracklin, of Sandwich, special license inspectors, appeared Wednesday afternoon before the special committee of the legislature, which is investigating the work of the Ontario Temperance Act. Inspector Mousseau complained of divided authority between Mr. Spracklin and himself, and stated that if he were not placed in full control he would resign. Mr. Spracklin declared that he did not want the "miserable job," even at \$10,000 a year, unless he had the entire confidence of those in authority over him.

Chief Inspector Mousseau admitted that conditions had improved since Mr. Spracklin was appointed inspector. He said he was surprised and shocked at the large number of farmers engaged in illegal liquor traffic.

KILLS FARMER AND BURNS HOUSE

Wife and Farm Hand Try to Cover Up Deed With Fire

Lacrosse, Wis., Nov. 4.—John Beyer, a farm hand, is under arrest here, charged with the murder of Nicholas Biesen, a farmer, on August 26th.

According to L. M. Shearer, Deputy State Fire Marshal, Mrs. Helen Biesen, widow of the slain farmer, confessed to him that she had kept Beyer in a closet in her home for four months prior to her husband's death. In the alleged confession Mrs. Biesen is said to have stated that the farm hand told her he had shot her husband when the latter broke into the closet and that she and Beyer then burned the farm house. Mrs. Biesen is held on a statutory charge.
