LAND, March 26 .- At the Libe varive convention held here yesterday ras a large attendance of the delegates ading Conservatives from all parts of ing. Mr. P. McRae, Reeve of Mara, d. Mr. Frank Medill, barrister, of ton, received and accepted the una nomination of the convention as the Conservative candidate to contest the should the seat be made vacant as is ated, it being understood that Mr., the present member, is to receive an ament at the hands of the Government.

AN "ANTI-TREATING" LAW.

Madison, Wis., March 29.—The Governor day signed the bill recently passed by the egislature prohibiting the practice of treating." The bill provides that any perm who shall hereafter ask another to drink at his expense, or any person consenting to drink at another's expense, shall be liable to arrest and punishment. When the bill was introduced into the Legislature it was referred to as a senseless impracticable idea, and no-body thought it would become law. It has only attracted attention since it passed.

MEDICAL EXAMINATIONS.

List of the Successfal Kingston Graduates.

Kingston, March 25.—The following have graduated from the Royal College of Physicians and Surgeons:—Without an oral—W. J. Grison, Kingston; J. L. McGuern, Lonsdala; D. Wallace, North Graves; E. Oldham, Kingston; Jas. F. O'Shea, Norwood; M. Dupuis, Kingston; F. R. Alexander, Ottawa; A. W. Herrington, Mountain View; J. H. Betta, Portsmouth; D. Johnson, Consecon. With an oral—R. Coughlan, Hastings; John Jamieson, Kars; B. J. McConnell, Pembroke; D. H. Rogers, Gananoque; S. H. Snider, Niagara; T. J. Symington, Camlachie.

THE PRINCE ALBERT SCANDAL. Acquittal of Mrs. and Miss Eddy of the Charge of Infanticide.

PRINCE ALBERT, via PORT PERRY, March 26.—The Prince Albert scandal, in which Mrs. and Miss Eddy are charged with killing the illegitimate infant of the latter, came up to-day for further hearing before Justices Nott and Crandall. Mr. J. E. Farwell, county Crown Attorney, again appeared for the Crown, and N. F. Paterson for the accused. After hearing several witnesses the magistrates dismissed the case, holding that there was not the first word of evidence to warrant them in committing the prisoners. The court gave Crown Attorney Farwell, and Mr. J. W. Murray, Government detective, great credit for the manner in which they had worked up and attended to the case; also to Mr. N. F. Pat-erson for his attention in defending the pris-

PROHIBITION IN KANSAS. robes to be Shut Up for Using Wine at

ad shutting up the church itself as a purious and shutting up the church interpretation of the Rev. Dr. Beatty, rector of the Episcopal Church at Lawrence. Last Sunday that the sacrament as a supplied to the supplied t Church at Lawrence. Last Sunday that clergyman administered the sacrament as usual, regardless of the consequences, having previously announced to his congregation his determination to do so. He said: "We are willing to render unto Cæsar the things which are Cæsar's, but we will give to God the things that are His. I say, as did Peter, 'Judge ye whether we should obey men rather than God.' Of one thing you may be assured: we shall never recognize for a moment the attempts of human legislation to destroy the great accrament of the Christian Church." It is probable that the Rev. Dr. Beatty's action will be imitated by other clergymen, and the result is hard to predict. It will be argued that the State cannot permit the prohibition law to be openly violated by clergymen without arousing a storm of opposition from those to whom its enforcement is a pecuniary loss, and, on the other hand, that to consign the Rev. Dr. Beatty to prison and close his church as a nuisance, would place sharp weapons in the hands of those who want to see the new law hewn down root and branch. Baroness Burdett-Coutts' husband is about to enter the political arens, and will contest Mr. Bradlaugh's place in the House of Com-mons in the Conservative interest. mons in the Conservative interest.

In the British House of Commons on Friday the debate respecting the evacuation of Candahar was resumed, and the resolution censuring the proposed evacuation rejected on a vote of 336 to 246. A rebellion has broken out in Herst against Ayoub Khan, the pretender to the throne of Afghanistan, thus affording an excellent opportunity to Abdurrahman, the British appointee, to consolidate his power,

phet, the Prince has left St. Petersburg on his return journey to Berlin.

One of the perpetrators of the attempt to blow up the Mansien House at London, Coleman by name, is said to have sailed for New York from the Thames by the Anchor line steamer Australia. An effort will be made to intercept the vessel at the Lizard and arrest the fugitive, and a police inspector and constable have been detailed for the duty.

Three Irish-Americans, Mooney, O'Donnell, and Coleman, are said to be concerned in the attempt to blow up the Mansion House in London. The detectives who were sent to the Continent on the track of the two first mentioned rely on the good offices of the Continental authorities to effect their arrest, the offence not coming under the purview of any of the extradition treaties.

The St. Petersburg Goles prints an article from Prof. Martens, the well-known writer on international law, strongly urging international co-operation against conspiracy. "If Russia," he says, "could seal up her territory against plots emanating from Paris, Geneva, and London, she could soon settle accounts with the Mihilists. Everybody knows the spot in Geneva where Russian emigrants mature their devilish achemes of murder, yet the Swiss authorities leave them alone because contemporary international law forbids their extradition." The Conservative Russian press urge as measures of reprisal against Switzerland the rupture of diplomatic relations, the general expulsion of the Swiss from Russia, a prohibitive tariff against Swiss merchandise, and encouragement to Germany to annex Switzerland. Chicago Inter-Ocean.

Rochester, N.Y., March 23.—Robert Nelson, residing on Backus avenue, in this city, has for some time past been known among his intimate personal friends as being afflicted to a peculiar and unusual degree with insomnia. It was stated that for several months at a time he was in the habit of going without sleep, whether from inclination or necessity was not ascertained. The facts seemed sufficiently marked to warrant an investigation, and he was sought at his residence. Mr. Nelson, who is frank and gentlemanly, was surprised that he should be brought into newspaper notoriety. "I did not say," explained Mr. Nelson, "that I had ever been without sleep for four months. But last summer I had no sleep whatever during any of the succeeding days or nights in more than three months. I had no object in remaining awake so long; that condition was the reverse of what I desired. In fact my friends were very anxious about me, and feared that the seemingly unnatural condition I was in might develop into physical or mental derangement. I took all sorts of remedies, except morphine or poison, but all to, no effect. There was no general breaking down, loss of appetite, or any illness as a result of this long wakefulness, but I had hard headaches, as I always do periodically. Aside from this I felt tip-top. I worked every day at my trade, that of a house-builder. My appetite was never better. But I could not sleep at all, night or day. I didn't try very hard to sleep, for the truth is, I didn't feel sleepy or drowsy. I went to bed at night as usual, but I heard the clock strike every time till morning, and my mind was as active and full of thought as if I had been up and at work all night. There was not a moment of that forgetfulness or unconsciousness peculiar to sleep. Yet, strange as it may seem, I really rested and kept fresh and strong. My eyes were not blood-shot. I did not lose flesh, and nobody but my wife and other intimate acquaintances would have known, if I had not told them, that I did not sleep Uxbridge, March 26.—Mrs. Bier, of Reach township, was badly injured this svening. Her son was trying to back the team out of Chinn's hotel sheds when the horses knocked the young man down and tried to run away, overturning the waggon, throwing Mrs. Bier out, and jamming her head between the waggon-box and the gate-post. She is not fatally injured, but was for some time insensible. Orillia, March 26.—A young man named McDonald, employed in Dealey's spoke and hub factory, narrowly escaped instant death to-day. His clothing was caught in the hubboring machine, and before the engine could be stopped he was stripped absolutely naked except his boots. His clothes, shirt and all, were torn into shreds. known, if I had not told them, that I did not sleep as long and sound as any of them."

"And how do you account for this remarkable physical and mental condition which can endure without the restoring process of sleep?"

"I can only say that I think it is inherited. My mother used very frequently to lie awake nights for long periods. I never even as a child needed or took more than three hours of sleep nights. PORT COLUGENE, March 26.—A man named Henry Chark, from Buffalo, working on the canal enlargement at Stonebridge, was killed to-day by the box used in hoisting stones falling on him. Another man named Michael Swords, of Welland, was also seriously, if not fatally, in ured by being jammed against the side of the canal hy a stone-box.

ours of sleep nightly, and since my twents some It was with the greatest any occurrence with me, and I do not who drinks wine is thereby prejudiced an extent that he is disqualified for the last and I do not be out of danger to day. The Rev. W. M. Thases many occurrences with me, and I do not have been the cough here, close my eyes to rest them, and keep right on thinking till morning, just as if my mind were run by clock-work, which needed no winding up. I feel some peculiar sensations when I have been without sleep for weeks or months. For instance, men seem ten times further off, when I see them from a little distance, than they really are. The funny part of it is, that a man looks as tall as a small liberty-pole when I see him just far enough off. Then there is another peculiar sensation connected with my system on such occasions. When I was valking on the house-top last summer, after my long sleeplessness, I felt confisiantly as a man does when he is raised rapidly from the ground—as if I were as conding rapidly in a balloon or clevator, or perhaps as a man might feel if he could fly. I am not at all forgetful. I can rememberevery little event that ever took place in or consoled with my experience since I have been old enough to have any memory of anything. The most at all forgetful. I can rememberevery little event that ever took place in or consoled event that ever took place in or consoled with my experience since I have been old enough to have any memory of anything. The most at all forgetful. I can rememberevery little event that ever took place in or consoled with my experience since I have been old enough to have any memory of anything. The could my count, restlessly trying to sleep, as many other wakeful people do. Sometimes, at the dead of night, I find it rests me more to get up and walk about and occupy my mind with thoughts of the objects I see, that it does to lie and think at random as one my count, restlessly trying to sleep, as the dead of night, I find it rests me more to get up and walk about and occupy my mind with thoughts of the original people of the could my county in the could my county to the proposition of the propertion of the propertion of the propertion of leaves any the number of the propertion of the pro

Wakening the Sleepy Legislature at Albany.

A few days ago, in answer to an enquiry in the Dominion Parliament as to the progress of negotiations with the State of New York in respect to the preservation of the scenery of Niagara Falls, Sir John Macdonald said that no progress had been made, but "it was expected that legislation would take place during the present session of the New York Legislature, favourable to the purpose." We are glad that Sir John has had reason to think so, for the slight interest apparently taken in the matter at Albany had left us in some fear that it might again be neglected.

It is the universal opinion of all who have given any consideration to the conditions that unless some action is taken by the State the result will in a few years be exceedingly disgraceful to us. The board appointed to advise the Legislature was composed of men eminently entitled to respect, and confidence. There may be room for question whether their sole recommendation that a judicial enquiry should be made as to the value of certain lands, as a step toward wise legislative consideration of the problem, is the best and only thing now to be done; but, if not, the credit of the State at least demands that the subject should be taken up with an earnest purpose and receive efficient and dignified discussion.

The question is one of world-wide interest, and decent regard for the opinions of the many eminent statesmen and men of letters, science, and art who have urged its consideration should prevent its being treated superciliously.—N. Y. Tribune. The intelligence of old troop horses is the subject of many anecdotes which, wonderful as they often are, will rarely be doubted by anyone who is familiar with horses. A good story illustrative of their sagacity is told and vouched for as authentic by the Diamond News. The scene of the occurrence was Potchefstroom, where our men and the Boers were known to be very near neighbours; so near, indeed, that when the horses were turned out to water they had their headstalls and halters taken off, so that if the enemy suddenly appeared and tried to catch the animals they would have nothing to lay hold of them by, and the horses were let out of the fort to water, and rushed straight to the view where they usually drank. But the Boers were nearer than had been suspected, and, jumping out of some trenches, succeeded in captaring the animals, in spite of the fact that the halters were missing. The Boers, being admirable riders, as is well known, mounted, and would, probably, have been able to guide their new steeds into the town, when suddenly the bugle at the fort sounded "horses in at a trot," and straightway the whole of them turned and made for home, carrying their unwilling freight. The Dutchmen threw themselves off right and left, but four of them were carried right into camp and taken prisoners.—London Standard. Tellow as a Guinea.

The complexion, in the care of unchecked liver complaint, culminstag in jaradice, is literally "as yellow as a guinea." It has this appearance because the bile, which an ables the bowels to act, is directed from its proper course into the blood. Mr. Myles was re-elected reeve of Euphrasia by a majority of 166.

Considerable square timber is being made in the vicinity of Owen Sound. An Owen Sound man will ship 125,000 rail-way ties to Chicago next season.

The News reports a great rush of business in the Berlin factories, and also the proposed establishment of new industries there. It is the hum.

the hum.

The people of St. Joseph's Island appear to be reaping a rich harvest from their extensive forests. We notice by the Manitoulin Expositor that 650,000 feet pine logs, 131,000 railroad ties (principally cedar), 149,200 cedar posts, 11,000 telegraph poles, and 3,900 cords of wood have been taken out by contractors on St. Joseph's Island this winter.

The will left by the late Retrieb Research

on St. Joseph's Island this winter,

The will left by the late Patrick Power, ex.M.P., was a very peculiar one. It will be remembered that he left some \$40,000 to his son, Senator L. G. Power, in such a way that for some years he is only to get a few hundred dollars a year. This was done to compel him to work at his profession for a living, and not to rely solely on his fortune. It now transpires that the Senator is to be disinherited should he ever become a candidate for the Provincial Legislature or House of Commons, and the money is to go to the Jesuits.

Jesuits.

Last Wednesday afternoon Mr. Stanley Rowe, youngest son of Basil R. Rowe, Esq., of Orillia township, went into the stable to harness up a team of horses for the purpose of driving into town. While in the act of putting on the harness one of the horses turned upon him and literally kieked him to death. The deceased was about twenty years of age, and was a most exemplary and promising young man. This terrible occurrence has cast a gloom over the town and neighbourhood.

rence has cast a gloom over the town and neighbourhood.

Wiarton Elcho:—On Thursday of last week Mr. George Keys was making ties at the mouth of Old Woman's river, and hearing his dogs making a noise went to the place, and found one bear and three cubs. The old bear was the aggressor, and was making it pretty lively for the dogs. It attempting to save the dogs, the bear turned her attention to him and knocked him down. He managed to get up. and went for the bear, calling aged to get up, and went for the bear, calling on his son for a gun. He, however, succeeded in killing Bruin with an axe. He then got the gun and shot one of the cubs. He followed the others for about four miles, but did not succeed in killing them.

lowed the others for about four miles, but did not succeed in killing them.

On Wednesday of last week Mr. A. C. Bowen was badly injured by an explosion. Mr. Bowen has been engaged for some time in blasting rock at the Buffalo breakwater. On the day in question he had put two cartridges in position, and one of them exploded all right. The other not going off, Mr. Bowen went to examine it. As he was bending over it with the intention of taking it out, it suddenly exploded, throwing Mr. Bowen several feet, filling his face with powder, and severely injuring him. He was got home here, and is under the doctor's care. He will likely be unable to work for several weeks, but will, so the doctor says, come out all right. It was certainly a very narrow escape. — Welland Telegraph.

The low lands of Wainfleet and Humberstone are inundated. Nearly the whole 5,000 acres of land owned by the county in these townships, says the Tribune, and a large portion of that sold to and occupied by settlers, are flooded. In the neighbourhood of the Air Line Junction the freshet is very great. Both sides of the railway track are flooded, the whole neighbourhood presenting the aspect of a lake dotted with trees, buildings, &c. Farmers are obliged to "raft it" from house to barn to reach terra firms. The cattle keep themselves we have appeared.

The death is announced of the Rev. Charles Packard, pastor of the Presbyterian church of Windham, N.H., at the age of 60. He was preparing a sermon from the text, "Lord, now lettest thou thy servant depart in peace," when he was stricken.

The Rev. Morgan Dix, D.D., denies that the Protestant Episcopal Church favoura Universalism. He says that the Prayer Book itself is a sufficient answer to the charge. The references in that book to hell and to everlasting punishment are in very plain terms.

William Hurr, an Ottawa Indian, has just been ordained by a Baptist Council in the In-dian Territory. Grey Eyes, the chief of the Sacs and Foxes, asked for Mr. Hurr as a missionary to his people. "Send us,"
"an Indian on whom we can depen
we will hear him."
