Schooner Missing.

As exclusively reported by the Telegram yesterday the schooner *Maud*, skipper Tobias Abbott, owner, with a crew of five men of Musgrave Harbor, is still missing. John R. Whiteway's schr. *Lady R.*, left Musgrave Harbor in company with her last Tuesday morning and arrived here next day. Mr. Abbott who is now in town telegraphed to all the outposts where there are offices yesterday and received no report of her. She is a 30 ton schr., well found, and had Messrs. Moulard and Flynn on board who were going to the fishery in her. It is believed that she ran into an iceberg.

MUST REMOVE IT.

To-day a resident of Freshwater Road reported to the police that a horse perished in distress from lack of health and lack of labour. Many of these schemes are experimental. They will be watched with care. Care will have to be taken not to soften the fibre of self reliance and independence and to end in a nation of adults helpless as children. Surely this will not pass the wit of man or the craft of statesmen. At all events the age of *laissez faire* is over and attempts to cure the cankers which are eating away our civilization are being made, and we believe these efforts will not be wanting in success, and will create an era of social service which will be as brilliant in its achievement as the Elizabethan and the Victorian eras were in their own ways.

AN UNUSUAL OCCURRENCE.

A few days ago a woman residing at Portugal Cove, it is reported, gave birth to four children. Her husband died but the mother is doing well. About 35 years ago Mrs. Keefe, of St. John's, gave birth to a similar number.
HORSES FOR FIRE HALL.—Mr. J. R. Parsons imported two fine horses for the Fire Hall by the *Royalist*. They were bought in Montreal and were imported there from Russia. Dr. Donnelly inspected them yesterday and pronounced them to be all right.

THE ROSALIND'S PASSENGERS.

The *Rosalind* sails for Montreal, via Sydney at midnight. Her passengers are Mrs. Wheeler, Miss Templeton, Miss Donovan, Miss Hipsley, Mr. Eckersley, Mrs. Parsons and child, Jas and Mrs. Whitman, H. James, J. Cahill, Mrs. Tuck, Mr. Isaacs and 9 in steerage.
BITTEN BY A DOG.—A lad named Brown, of Brennan's Street, 15 years of age, was out selling papers this morning on Adelaide Street, when he was attacked by a dog belonging to Mr. Meyer and badly bitten. Dr. Cowperthwaite attended him. He was taken to a drug store and had the wound cauterized.

THE DUST NUISANCE.

To-day the wind blows clouds of dust through the principal streets and up to 1 o'clock there was no sign of the sprinkler. Pedestrians were also choked and blinded on Duckworth and Gower Streets, stores had to keep their doors closed and on all sides there was denunciation of the Council as no cars were on the streets.

BANKER HURON ARRIVES.

The banker Huron, Capt. W. Martin, of New Orleans, arrived here at 6 p.m. yesterday from Grand Bank with 400 qtls. fish. This is her second trip to the Banks and she found fish scarce. She had 8 days' setting of trawls and the fish taken by the vessel are very large. She saw no vessels on the Banks except one French schooner.
MEN ON STRIKE.—To-day the men at work concreting on the new Nurses' Home, on the Grenfell Building and new Clothing Factory, numbering in all 69, went on strike and quit work for a rise of pay. They were receiving \$1.25 a day and demanded \$1.50. The men say they will not go to work unless they get the increase, but the employers, Messrs. Kennedy and Ellis, do not feel like acceding to the demand.

North Sydney, May 24.—John Neal is dead, and George LeBlanchard is Harbor View Hospital, Sydney Mines, with his two legs badly broken and his head split open as the result of being struck by a runaway loaded coal box in the N. S. Steel Co's. colliery at Sydney Mines yesterday afternoon.

The member was mangled and four toes were completely severed. He was attended by a doctor and sent home later, and the foot must be amputated. The accident is a bad one for a poor man who has a large family to support. It will be months before he can be about again.

Collision in Harbor.

The schr. *Jasper*, skipper Alfred Hunt, of Fair Islands, which arrived here from Fair Islands yesterday and anchored in the harbor off Baird's, was run into by the schr. *Three Bells*, Turner, of Happy Adventure, this morning while beating up the harbor. The bowsprit of the *Jasper* was broken off in near the bows and carried clean away. Capt. Turner promised to pay for the damages.

FEED YOU MONEY

Feed Your Brain and It Will Feed You Money and Fame.
"Ever since boyhood I have been (especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly."
"The result was that I found myself a few years ago, afflicted with ailments of the stomach, and kidneys, which interfered seriously with my business."
"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet."
"I found that I was at once benefited by the change, that I was soon relieved from the heartburn and indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased."
"My nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had not in a moment, but gradually, and none the less surely, been restored to normal efficiency."
"Now every nerve is steady and my brain and thinking faculties are quick and more acute than for years past."
"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I began to use Grape-Nuts food I can work till dinner time with all ease and comfort."

The Age We Live In.

These days are the days of big measures in the Old Land. As the Elizabethan era was brilliant in literature, and the Victorian era in mechanical invention and material expansion, to-day we seem to have entered on age of social service. Most noteworthy of all is the prominent part taken by the State. Memorable as are the efforts of the Imperial Conference in sounding the spirit of the Union among the sea-linked States of the Empire, and in seeking a means of insuring the safety of all its parts. Valuable as was the South African Union. Far-reaching as may be the endeavour to give an autonomy to Ireland. Necessary as it may be to recast the membership and curtail the powers of the peers. All these great acts of high statesmanship are after all mere attempts to perfect the machinery of Government, and will not reach the heart of things necessary unless they are directed aright. And the hope of the age is not in machinery alone, important as the machinery of Government may be. The hope of the age is in the efforts directed to cope with the failures of social economy. These blots on civilization are: unnecessary sickness, ravages of curable diseases, the distress and poverty of old age, the misery which follows in the train of sickness and unemployment. The glory of the age that we are entering upon is that the

State considers it its bounden duty to co-operate with the individual and with benefit societies in coping with these social problems. First and foremost, it is coming to be recognized to be the duty of the State to see that the resources of the earth, air and sea are used to better advantage. Next, that children shall be better fed to take their part in the exploitation of what God has provided for the benefit of men. Again, that it must make efforts to down disease, must help those past their labour, those that are in distress through sickness and lack of employment. As examples of these efforts may be noted: Conservation Commissions; Educational enquiries, grants and laws; laws relating to employment and protection of women and children; Old Age Pension schemes, the Lloyd George schemes dealing with provisions to fight consumption, to help those in distress from lack of health and lack of labour. Many of these schemes are experimental. They will be watched with care. Care will have to be taken not to soften the fibre of self reliance and independence and to end in a nation of adults helpless as children. Surely this will not pass the wit of man or the craft of statesmen. At all events the age of *laissez faire* is over and attempts to cure the cankers which are eating away our civilization are being made, and we believe these efforts will not be wanting in success, and will create an era of social service which will be as brilliant in its achievement as the Elizabethan and the Victorian eras were in their own ways.
