Judgment was rendered in the case of John Allen of Tipperary, who was sentenced to death by courtmartial for having a revolver and ammunition in his possession. Mrs. Henneberry Says Tanlac Has Restored Her To Perfect Health After Years Of Suffering.

"Tanlac is far ahead of any medicine I ever saw or heard of," said Mrs. John Henneberry, Eastern Passage, N.S. while at Kinley's Drug Store in Halifax. "At the time I began taking the medicine I had suffered from indigestion for several years and was in a badly run down condition. I was so weak I couldn't walk but a very short distance without being almost completely out of breath, and could hardly do my housework. Everything I ate seemed to collect in a lump, like lead, right in the pit of my stomach. Gas would form and bloated me until I could hardly get my breath, and I suffered terribly from

heartburn. I had no appetite at all, and was tired when I went to bed and tired when I got up in the morning. Well, my husband got started on Tanlac, and as it helped him so much, I decided to take some myself, and it certainly has done me a world of good. My stomach seems to be in perfect condition, as nothing I eat hurts me the least bit, and my strength has all come back to me and I am feeling fine. My husband and I are both enthusiastic about Tanlac." Tanlac is sold in St. John's by M. Connors; in Paradise, by Mrs. Martin F. Byrne; in Upper Gullies, by Heber Andrews; in Portland, by H. C. Haines; in St. Joseph, Salmonier, by Mrs. J. Gushue; in Marystown, by Exploits Valley Royal Stores, Ltd.; in Flat Islands, by William Samsom; in Jamestown, by Christopher Haines, and in Lewisporte by Uriah Fraeke.—adv.

A BANK MYSTERY.

TORONTO, Feb. 24. No solution of the mystery of the disappearance of eight thousand in cash and eleven thousand in Clearing House certificates from the Bank of Montreal here to-day had been found late this afternoon. Detectives searched all of one hundred and sixty employees in the Bank this afternoon, a woman detective doing the searching among the young women members of the Bank staff, while half the male operatives closely examined the clothing and belongings of the remainder of the Bank staff. That was an "inside job" was the basis on which the examinations were conducted, and every person connected with the Bank was compelled to undergo official scrutiny.

PAN-GERMAN PROPAGANDA.

BERLIN, Feb. 24. Serious apprehensions are beginning to be entertained here that extreme Chauvinists may attempt to provoke disturbances during the sittings of the London Conference on reparations and disarmament, and even the possibility of an attempt at a coup d'etat is being discussed. This is the result of violent propaganda against the decisions of the Conference held recently in Paris, conducted especially by Pan-Germans.

That Plane Again.

Preparations for the Sealshery. A great deal of interest and no small amount of controversy has been caused in the city by the proposed use of an aeroplane for scouting purposes in the coping sealshery. It is argued in some quarters that the weather is anything but conducive to the use of aeroplanes and that disaster is quite within the bounds of possibility if this method of locating the herd is attempted. On the other hand, however, there are quite a number of people who think that this innovation will be a most successful one. Preparations during the past month have been progressing favourably at Botwood and within a very short time the plane will be ready for a trial flight. As, however, the arrival of some necessary parts is being awaited, until they come the machine will not take off. The machine which is being used, is a "Westland," built in England, and looked upon by experts, as an excellent type of aeroplane. In appearance it resembles the Hearty's, has an enclosed cabin, capable of accommodating six passengers, and fully loaded can remain in the air for six hours, at a speed of 100 miles per hour. In order to contend with conditions existing on this venture, and in order to more easily take-off, skids something on the style of a toboggan have been attached to the under-carriage, and it is believed will be of great assistance to the airman. The crew of the plane, on the proposed trip, will be Capt. Cotton and Lt. Plalstone late R.A.F., as pilot, and Messrs. Wallace and Cleaver, mechanics, whilst it is learned that Capt. Nathan Keen has been appointed to the position of observer. Besides the plane there are also three airships at Botwood, but it is unlikely that these will be used this season. A smaller machine has however been despatched from England, via Halifax and should arrive here next week, and if possible this plane will be used in conjunction with the larger one. The project which is a daring one, when a Newfoundland winter is considered is being looked forward to, with great interest.

On the night of Sunday last the store of Mr. Reg Sullivan at Pouch Cove was entered by some thief who broke the cash box open, and got away with \$70. This was the first time that any cash had been left in the store overnight for quite a long time and it was particularly unfortunate that the thief should select that night to burgle the premises. So far there is no trace of the daring cracksmen.
